Dorchester	47

NE NIPS BOYS TOWN . . .

Few Breezes For Favorites

By TOM HENDERSON
Star Sports Writer

Seeded teams took a beating Thursday in all classes as the 60th renewal of the State High School Basketball Tournament opened a three-day run on two fronts.

The Class A tournament at Omaha's City Auditorium led the way when it came to the upset-and-hair-raiser department with two seeded clubs taking early trips home and the other two escaping to Friday night's semifinals only after being pushed to the wire by predicted also-rans.

At least one seeded club was eliminated in each of the other three classes Thursday, while only Class B Cozad, Class C Pawnee City and Shickley, out of the Class D ranks emerged from the first round with what could be termed easy victories.

Heart Stopper

Lincoln Northeast's 57-56 victory over unseeded Boys Town took the prize as the heart-stopper of the day.

The Rockets had to depend on a desperate jump shot by all-state footballer Maury Damkroger with only five seconds left in the game to pull out the victory.

Damkroger's shot capped a hectic finish which first saw Boys Town's 6-7 senior, Tyrone Pryor, provide the Cowboys with an apparent victory on a three-point play with 11 seconds left.

But the Rockets, who only a minute earlier, had failed in an attempt to stall out the game, brought the ball downcourt in a hurry with Damkroger sinking the shot just before the buzzer.

Scottsbluff followed the Northeast-Boys Town performance with a 60-53 upset victory over seeded Omaha Benson, never trailing after breaking away from an early 4-4 tie.

Teacher-Pupil Clash

The Scottsbluff victory sets up a teacher-pupil collision at 7 p.m. tonight between Northeast's veteran coach Ed Johnson and Scottsbluff mentor Jan Wall, an all-state performer for Johnson during his high school playing days.

Hastings, which entered the tournament with two regular season losses to seeded Fremont to avenge, did just that, knocking the pins from under the Tigers, 61-42, in the other Class A upset.

The victory was surprisingly easy for Hastings, which capitalized on the desperation play by Fremont late in the game to ice the game.

Tech Rallies

Even top-seeded Omaha Tech had to stage a second half rally before ousting pesky Omaha North, 69-65.

The Trojans came from a 40-34 half time deficit after smothering the harassing efforts of North's Wayne Piper who led all scorers in the game with 24 points.

Aside from top-seeded Cozad's machine-like 87-66 victory over Omaha Paul VI, the Class B tournament at the University of Nebraska Coliseum was also filled with its chilling moments.

Seeded Schuyler, making its fifth trip to the tourney in as many years, joined the upset victims, falling before the stingy defensive effort and a fourth-quarter scoring wizardry of Fairbury's brother act of Tom and Bob Siegel.

Laurel had to rely on a third quarter surge before holding off Lincoln Pius X to avoid the same fate after trailing much of the first half to the Thunderbolts who came out of the regular season with the hapless credentials of a 2-15 year.

Valentine also had its hands full against Sidney, needing a pressing detense to overcome a 14-point deficit in the second half before winning 49-46.

Top-seeded Pawnee City remained unbeaten, cruising into the Class C semifinals behind the 29-point performance of Judd Martin, stopping Bloomfield, 71-55, but Sutherland had to overcome a 44-44 fourth quarter deadlock before taking its victory over Hastings St. Cecilia, the defending Class C champions, 64-52.

Milford Bows

Seeded Milford bowed before the stubborn resistence of Elkhorn and Norfolk Catholic, also favored, was dumped by unseeded Henderson, 61-47, at Pershing Auditorium.

In Class D, Shickley came within two points of the tournament scoring record, blasting Paxton, 90-58, but top-seeded Mead had to overcome a hustling Dorchester club which had battled to a 34-34 tie during the first three quarters of play, before winning, 54-47.

Overton cooly sank seven straight free throws in the final two minutes to take a 65-55 victory over seeded Hildreth and Melbeta, the smallest school represented in this year's state meet fought nip-and-tuck all the way with Atkinson St. Joseph before pulling out a 63-56 victory in other Class D action.

SENATE OKAYS VOTE AT 18

2 High Hurdles Still Face Bill

. . . MANSFIELD IS SPONSOR

STAFF PHOTO BY WEB RAY

WINNING SHOT . . . Northeast's Damkroger puts up winning shot with five seconds showing on clock, upper right, and the Rockets trailing 55-56.

Washington (UPI) — The Senate voted Thursday to lower the voting age to 18 in national, state and local elections, making up to 11 million youths eligible to vote by the 1972 presidential elections.

The legislation, approved 64 to 17, still faces two critical tests — approval by the House and a certain test of its constitutionality in the Supreme Court.

In Amending Bill

The voting age proposal, sponsored by Senate Democratic leader Mike Mansfield, was adopted as an amendment to the proposed five-year extension of the 1965 Voting Rights Act.

The extension of the act, which has enfranchised 800,000 Southern blacks in less than five years, still has to be approved by the Senate. There was no indication how soon Southerners would let the Senate reach a final vote.

The Mansfield amendment would allow youths between 18 and 21 to vote in all elections and primaries after Jan. 1, 1971.

Challenge Allowed

The Mansfield amendment allows for a speedy challenge of its constitutionality by providing that any court case testing Congress' action will be heard by a three-judge panel in Washington and appealed directly to the Supreme Court. Its backers said a challenge, appeal and ruling can be completed before the November 1972 elections.

The sponsors' contention that no constitutional amendment is required to lower the voting age is based on a 1966 Supreme Court decision which held that the 14th Amendment granted Congress the power to ban literacy tests as a qualification to voting.

They reasoned that if Congress is empowered to find literacy test to be discriminatory, it is also empowered to find a minimum age of 21 discriminatory against a group which is treated as adults for most purposes — those between 18 and 21.

21 In 46 States

The minimum voting age is now 21 except in four states. Kentucky and Georgia set the minimum at 18, Alaska at 19 and Hawaii at 20.

With the outcome certain, the Senate approved Mansfield's amendment after Sen. James B. Allen, D-Ala., gave up his one-man battle to change the amendment.

No voice was raised in the Senate against lowering the voting age to 18. The only opposition came from senators who insisted that it was unconstitutional to provide it through a simple statute rather than a constitutional amendment.

They pleaded with the Senate to wait and adopt a constitutional amendment, which would require approval by two-thirds of the Senate and House and ratification by three-fourths of the states.

Dixiecrats, Conservatives

In the end, however, only nine Southern Democrats and eight conservative Republicans voted against the Mansfield proposal.

The most formidable obstacle for 18-year-olds appeared to be Rep. Emanuel Celler, D-N.Y., 81-year-old chairman of the House Judiciary Committee, who opposes lowering the voting age, especially without a constitutional amendment.

"My opposition will be very, very severe" when the Senate bill goes into conference with a House version, Celler said. The House bill does not contain the 18-year-old vote provision.

State's Senators Record 'Nos' On 18-Year-Old Vote

Washington (AP) — Nebraska's Republican senators, Carl T. Curtis and Roman L. Hruska, voted Thursday against an amendment to lower the voting age to 18 in all federal, state and local elections.

The amendment passed, 64 to 17.

Curtis issued a statement saying he supported the idea of lowering the voting age, but felt that it should be accomplished through a constitutional amendment rather than by statute.

"The original Constitution clearly gave the states authority to determine qualifications of voters," said Curtis.

The Nebraska senator said the move to lower the voting age through legislation is "well intentioned but is not the right way to do it. I doubt its constitutionality. I favor the constitutional amendment route."

Today's Chuckle

What makes it so hard to get by these days is that our necessities are too luxurious and our luxuries are too necessary.

Copr. 1970, Gen. Fea. Corp.

Bombs Wreck 3 Big Firms' Offices

New York (AP) — A series of bomb blasts wrecked skyscraper offices of three of the nation's corporate giants Thursday in a pattern similar to an anti-establishment vendetta of planted explosives last summer and fall.

Because of anonymous forewarnings, there were no injuries in the latest bombings for which a self-described revolutionary group claimed credit. Phony threats emptied other city buildings, as police responded to 137 bomb scares in the first 16 hours of the day.

Elsewhere, rigid security measures were enforced at the Justice Department in Washington after a telephone bomb threat. No bomb was found.

In Cambridge, Md., police sought a mystery woman in the bombing Wednesday of the Dorchester County Courthouse as well as clues in the bomb blast 24 hours earlier that killed two men in a car on the outskirts of Bel Air.

Black militant H. Rap Brown was scheduled to go on trial in Bel Air on charges of arson and riot after his lawyer failed to win a change of venue to Cambridge.

Both men killed in the car had been associates of Brown on civil rights campaigns.

In Louisville, Ky., government buildings, private businesses, one school, Louisville General Hospital and the state fair grounds received a series of bomb threats, all by telephone. At least nine buildings were threatened and three were evacuated. Police found no bombs at any of the sites but continued their search.

Three persons are awaiting trial in the bombings of Manhattan skyscrapers and federal property last year, and a fourth is being sought. There were no arrests in the latest explosions.

The defendants in the 1969 bombings were described by authorities as "at war with the established order and powers."

The latest explosions were seen by one corporation spokesman as a "protest against the Vietnam War."

In a rambling letter to the offices of United Press International, a group calling itself "Revolutionary Force 9" took credit for the three early morning explosions that wrecked the separate office of Mobil Oil Corp., the International Business Machines Corp. and the General Telephone and Electronics Corp. All three devices were planted in men's rooms and exploded within a 20-minute period.

The letter accused the three firms of profiteering from the war in Vietnam and from "Amerikan imperialism in all of the third world."

School Officials See Decline In Teacher Recruitment Pace

By LUCILLE HOWARD
Star Staff Writer

Failures in bond issue and mill levy elections in numerous communities across the nation and an increasing supply of teachers apparently are affecting teacher recruiting here, it was indicated Thursday.

Four out-of-state school districts cancelled recruiting visits at the University of Nebraska, and the number of recruiters who scheduled trips here is running well behind last year, according to NU Teacher placement director Lee O. DeJonge.

At least four school districts have canceled visits to Nebraska Wesleyan University, placement director Dr. Milton Evans reported.

Fewer Interviews

Fewer Nebraska schools are asking the two schools to set up interviews with teacher candidates, leading the placement directors to believe that outlying school districts are getting enough applicants by mail even in small towns for a good selection.

Lincoln school district recruiters have full schedules with applicants wherever they have gone, reported the personnel office. This is a departure from previous years when it was felt "almost futile" to go to some schools, it was noted.

Applicants were attracted to interviewers from what they considered to be more desirable locations, such as Colorado.

Have To Work Harder

Teacher candidates have been warned they will have to work harder for jobs this year, DeJonge pointed out, and as a result, many are requesting interviews with several different recruiters.

There hasn't been much activity as far as students being offered contracts to sign, he added.

"We sense that things are moving more slowly this year," Evans agreed. By April nearly 70% of NWU teacher candidates have signed contracts in past years. So far, few or none have been offered.

Recruiting at Union College is proceeding fairly normally, according to Mrs. Evelyn Goble. Most of the recruiters are from denominational schools, she said.

Cancellations at NU were by two California school districts where mill levy elections failed to pass, curtailing expansion in the systems, a Michigan district with financial problems causing a cutback in staff and Albuquerque, N.M., which has had financial problems in the past.

While 30 California school districts had interviewed candidates at NU by this time last year, only 20 had scheduled trips so far, DeJonge said.

However, more interviewers are coming from some other areas than before, he added.

Bond Failures

Evans indicated that bond issues failing to pass were blamed for cancellations of some recruiters from Colorado, California and Wisconsin.

Even though the supply of teachers is beginning to meet demands, recruiters from the good school districts will still be recruiting to find the best people for their staffs, Evans said, pointing out that the number of interviewers on the NWU campus has increased this year.

But some recruiters at NU told DeJonge that if the supply and demand for teachers remains the same next year, recruiting trips may be cut back.

YOUTH INJURED AT AUDITORIUM

Seventeen-year-old James Simpson of 1805 No. 30th was listed in serious condition Thursday after the youth struck his head against a concrete abutment while riding a freight elevator in Pershing Auditorium.

The youth, son of State Sen. Harold D. Simpson, was taken to St. Elizabeth Health Center with serious scalp lacerations and possible damage to the throat and larnyx.

Acording to police, Simpson was looking down over a railing as the elevator was going up.

When the top of his head struck the abutment, the force of the elevator pushed the railing against his throat, police said.

The incident occurred in the afternoon during state Class C basketball tournament games being held at the auditorium.

New York Times News Summary

2 German Leaders Agree To Meet In Erfurt

(c) New York Times News Service

Bonn — The leaders of the two German states will meet March 19 in the East German city of Erfurt, their governments announced Thursday. (More on Page 2.)

Neighbors Fight Israel

Jerusalem — Ground and air clashes along the frontiers with Egypt and Syria were announced by Israeli officials. Two Israeli soldiers were reported killed. The fighting, combined with guerrilla infiltration from Lebanon and rocket attacks from Jordan, meant that all of Israel's neighbors were engaged in fighting her.

Senate OKs Vote At 18

Washington — The Senate voted 64 to 17 to lower the voting age nationwide to 18 for all elections beginning in 1971. (More on Page 1.)

Credit Card Mailing Ban OKd

Washington — Unsolicited credit cards issued by oil companies are to be banned by the Federal Trade Commission. Cards mailed by banks and common carriers such as airlines are exempted from the FTC order, which has been approved and is expected to be announced shortly.

Passenger Train Subsidy OKd

Washington — The Senate Commerce Committee approved a bill that would establish the first federal subsidy for passenger trains in a basic nationwide system but that is also expected to make it easier for railroads to discontinue passenger trains outside the system. Within the system, to consist mainly of "corridor" routes between large cities, all passenger service losses would be reimbursed by the government.

Reorganization Proposed

Washington — President Nixon proposed, in a message to Congress, to reorganize his office by creating a Domestic Council and an Office of Management and Budget. (More on Page 2.)

Tarr To Direct Draft

Washington — President Nixon nominated Curtis W. Tarr to succeed Lt. Gen. Lewis B. Hershey as director of the Selective Service System. (More on Page 2.)

Sen. Murphy Subsidized

Washington — Since George Murphy came to the Senate in 1965, he has been the recipient of a $20,000-a-year salary as a consultant to Technicolor, Inc. In addition, the corporation gave him a credit card and paid half of the rent of his Washington apartment. But Murphy said the arrangement had been found proper and would not hurt his re-election chances this year.

Bomb Scares Abound

New York — Bomb scares caused the evacuation of several buildings and stores in the wake of the coordinated bombings of three midtown big-business skyscrapers early in the day. (More on Page 1.)

Tarr Accepts Draft Job Hoping To Serve Youth

World News

Washington (AP) — Curtis W. Tarr, President Nixon's choice to succeed Gen. Lewis B. Hershey as draft director, said Thursday he is accepting the assignment somewhat reluctantly with the hope he can "serve the young people of America."

Tarr, a rather gangling man of 45, has been for the past nine months assistant secretary of the Air Force for manpower and reserve affairs.

But in discussing Nixon's decision to nominate him to be director of Selective Service, Tarr emphasized his much greater experience as an educator in close touch with American youth.

University President

For six years before joining the Nixon administration, Republican Tarr was president of Lawrence University, Appleton, Wis. Before that he acted briefly as director of Stanford University's summer session and assistant dean of its School of Humanities and Sciences.

With this background, Tarr said, he hopes his work as draft chief will permit him to continue to serve young people.

Asked by newsmen at the White House for his attitudes toward student deferments and proposals for an all-volunteer army, Tarr said he would remain silent on such subjects until he testifies at Senate confirmation hearings.

He seemed to make it evident, however, that his views differ markedly, at least in some areas, from those of the aging Hershey who retired Feb. 16 after serving as draft director since World War II.

Not A Copycat

When asked if he would carry on in the Hershey tradition, Tarr said, "Man has to be an individual," and added that he has no intention of copying anyone.

On last November's anti-Vietnam "March on Washington" Tarr's words seemed a far cry from the criticism voiced by Hershey.

Tarr said of the march: "It was certainly an expression by a substantial number of people whose feelings certainly were sincere."

Brown-haired and blue-eyed, with a prominent aquiline nose, Tarr is 6 feet 6 inches tall. Even when faced with trying questions, he smiled readily.

The administration has been searching since last October for someone to take the Selective Service job at a time when the draft is under fire from many quarters. A series of prospective candidates turned it down.

Tarr has had personal experience with the draft, having been inducted into the Army during World War II.

A native of Stockton, Calif., Tarr entered Stanford in 1942 and returned there after Army service to earn a bachelor's degree in economics in 1948.

Master's In Business

Then he went to Harvard, earning a master's degree in business administration in 1950 and remaining there as a research assistant and instructor for two years.

Six years as vice president of a tractor company in Chico, Calif. followed before the campus lured him back.

Returning to Stanford, he earned a doctor of philosophy in American history in 1962. The subject of his dissertation was "Unification of the Armed Services."

As a graduate student at Stanford, Tarr made an unsuccessful race for Congress in 1953 as the Republican candidate from California's second district. Married, he has two daughters.

YOUNGEST ENGLISH VOTER

Eighteen-year-old Trudy Sellick waves in North Newton, England, Thursday after casting her ballot and thus becoming the youngest and first person under 21 to vote in a British parliamentary election. When Trudy, an audio typist, voted in the Bridgewater by-election as soon as the polling station opened at 7 a.m., she was just 18 years, 5 hours and 15 minutes old.

Susan Clark Signs

Hollywood (UPI) — Susan Clark, voted Canada's 1969 "Star of the Year," will appear in two Universal movies "Tell Them Willie Boy Is Here" and "Skullduggery."

West, East German Leaders Agree To Meet Next Week

©The New York Times

Bonn — Chancellor Willy Brandt of West Germany and Premier Willi Stoph of East Germany agreed Thursday to meet next Thursday in the tradition-rich city of Erfurt, 36 miles inside the German Communist state.

The agreement, following 24 hours of negotiations that began last week, broke a bitter deadlock.

It paves the way for an unprecedented meeting between the leaders of the two German states that have viewed each other with extreme hostility ever since they were set up almost 21 years ago.

While no one here or in East Berlin expects the Brandt-Stoph meeting to lead to reconciliation between the two German systems — capitalism and communism — the long-term implication for East and West Germany is reduction of cold war animosities at least at the official level.

The deadlock between Brandt and Stoph began at the first meeting of their negotiating teams in East Berlin March 2.

They broke off the talks amid bitter official polemics last Friday with no agreement in sight, and most senior West German officials believed until Thursday that the summit had collapsed.

Brandt suggested Monday that the two sides try to avoid the Berlin issue by meeting "at another site." The East Germans came up with Erfurt.

Nixon Plans To Revamp Councils

Washington (AP) — President Nixon, launching a continuing program to reshape the federal bureaucracy, began Thursday by proposing to revamp the policy-making and budget-drafting machinery of his own office.

In a special message to Congress, Nixon put forward a two-point plan that will go into effect automatically sometime this summer unless vetoed by either house of Congress within the next 60 days.

—A Cabinet-level Domestic Council with a staff of 40 to 50 specialists will coordinate the formulation of domestic policy — much as the long-established National Security Council operates in the area of foreign affairs and defense.

—The familiar Budget Bureau will be replaced by a new Office of Management and Budget that not only will help the President draft the government's annual spending programs but will keep a continuing watch on the effectiveness of federal undertakings.

"The Domestic Council," said Nixon, "will be primarily concerned with what we do; the Office of Management and Budget will be primarily concerned with how we do it and how well we do it."

Laotian Says U.S. Bombing To End Only When North Vietnamese Leave

Vientiane, Laos (AP) — Premier Prince Souvanna Phouma declared Thursday that U.S. bombing in Laos will end only when North Vietnam withdraws its troops.

Souvanna was asked in an interview about last week's peace proposal by the pro-Communist Pathet Lao calling for a cease-fire and an end to U.S. intervention.

While saying his government was "ready for a cease-fire," Souvanna replied: "Let's not talk uniquely about aerial bombardment. We must also talk about the presence of North Vietnamese troops.

'Tied Together'

"The two things are tied together, on one hand the withdrawal of the North Vietnamese troops and on the other hand the stopping of the bombardment . . .

"In order to remove the effect, you must remove the cause of the bombing, which is the presence of North Vietnamese troops in Laos."

In a separate interview, Soth Pethrasy of the Pathet Lao mission in Vientiane said the peace plan depended upon whether the United States halts the bombing. He also denied that North Vietnamese troops are in Laos.

Soth declared that "our proposal is not propaganda." Some Laotian government leaders have wondered whether the plan was a diversion to mask preparations for more military operations.

The Five Points

The five-point Pathet Lao peace proposal announced by radio Hanoi last week calls for a cease-fire, a consultative political conference composed of representatives of all Lao parties, the establishment of a provisional coalition government, and establishment of a "security zone to ensure the normal functioning of the consultative political conference and the provisional coalition government."

Souvanna did not appear to be very pessimistic about the overall situation in Laos.

"The situation is serious but not dramatic," he said.

"We must not be too pessimistic. We must keep cool. We'll see what the great powers will do if Laos is actually totally invaded by North Vietnam."

Fighting Breaks Out As GIs Move Back In

Saigon (AP) — U.S. and North Vietnamese troops fought again Thursday in the jungles near the Cambodian border north of Saigon, scene of sharp engagements earlier this week.

U.S. air cavalrymen and 11th Armored Regiment troops were hit by a barrage of rocket grenades as they penetrated enemy territory 28 miles northeast of Tay Ninh.

The U.S. forces reported killing 29 enemy soldiers in the four-hour battle fought three miles from Cambodian soil, where the North Vietnamese and Viet Cong have sanctuaries.

Four Americans were killed and 17 wounded in the battle, the U.S. Command said.

As in two battles in the same general area Tuesday, the fighting broke out after the American forces moved into a region from which they had been absent several months.

The U.S. Command said 83 Americans were killed in combat last week, compared with a three-month high of 113 the week before. The number of U.S. wounded rose steeply, however, to 803 from 465 the week before.

The new casualty figures brought the total of 40,846 U.S. troops killed and 269,099 wounded since Jan. 1, 1961.

South Vietnamese losses for last week were reported as 343 killed and 742 wounded, exceeding U.S. losses for the 42nd straight week. They raised to 101,332 the number of South Vietnamese troops killed in the war since Jan. 1, 1960.

The allies claimed 2,105 North Vietnamese and Viet Cong troops were killed last week, making a total of 607,886 enemy reported killed in the war to date.

Cambodians Again Protest

Phnom Penh, Cambodia (UPI) — Cambodians angered by the presence of Hanoi and Viet Cong troops in their neutral country demonstrated violently for the second time in 24 hours Thursday, and the national assembly condemned the Communists' use of the country as a sanctuary from the war in South Vietnam.

U.S. Endorses French Demand

Washington (AP) — The United States endorsed Thursday a French call for the withdrawal of all foreign forces from Laos, including U.S. air and North Vietnamese ground units.

Panel OKs Postal Plan

Washington (AP) — President Nixon's plan to turn the mails over to an independent U.S. Postal Authority was approved in a turnabout Thursday by a House Post Office Committee that rejected the plan last year.

Several opponents asserted privately the administration won the votes for the 17-6 committee approval through intensive political horsetrading.

The proposed corporation would be government-owned but independently operated. It is designed to put the postal system on a self-supporting basis by 1976 and has been given high priority by the administration as a way to wipe out postal deficits mounting to as much as $1.2 billion a year.

Rep. Glenn Cunningham, R-Neb., a committee member, voted for the plan.

LBJ Up And Around

San Antonio, Tex. (UPI) — Former President Lyndon B. Johnson strolled around his hospital room Thursday in a further effort to build up his strength. Doctors said they were satisfied with his recuperation to date.

Doctors at Brooke Army Medical Center, where Johnson, 61, was taken March 2 complaining of chest pains, said Johnson's vital signs were still normal.

His progress was so heartening that the daily medical bulletin on Johnson's condition contained only one paragraph Thursday. It was the shortest bulletin issued since Johnson entered the hospital.

Despite Johnson's continued improvement, doctors declined to say when the former president would be allowed to return to the LBJ Ranch about 80 miles north of San Antonio.

Mrs. Johnson, who has been at the hospital since Johnson was admitted, remained in the suite on the hospital's seventh floor.

Clearing Of Wreckage 'Going Slow' At Aurora

. . . Bombs Picked Up, Inspected, Sent Back To G.I.

Aurora (AP) — Hamilton County Sheriff William Schultz said Thursday it may take two more days to clear the wreckage from a train derailment that scattered Vietnam-bound bombs along the tracks near here.

"We're working hard, but it's going mighty slow," said Schultz. "The captain (Army Capt. Bob Boaldin) said he hopes it will be cleared by late Friday, but I'm sure it will take longer."

Capt. Boaldin and a six-man Army bomb team from Fort Riley, Kan., inspected the bombs as they were picked up and loaded on boxcars for return to the Cornhusker Army Ammunition plant at Grand Island. Some bombs were returned to the plant Thursday.

Carefully Inspected

Lt. Col. Martin Marsh, military commander at the plant, said all bombs will be carefully inspected. He expected it would take a few days to return all the bombs to the plant, where they were manufactured for use in B52s in Vietnam.

"Some of the bombs will be disposed of, and the others will be cleaned up," he said. "The ones that are not damaged will be shipped to the original destination."

By Thursday morning all bombs on the ground had been picked up for return to Grand Island. However, some bombs remained inside the boxcars.

Thirteen boxcars loaded with more than 1.7 million pounds of bombs were among 34 cars of a Burlington Northern freight train that derailed at the edge of Aurora Wednesday morning.

Schools were dismissed for the day, and about 50 families decided to leave homes in the area until Wednesday night when Capt. Boaldin determined there was relatively little danger.

As railroad and munitions personnel, aided by a number of pieces of heavy equipment, worked at the derailment site Thursday, a fire truck was kept nearby in case of fires.

The railroad estimated damage at $1 million. The derailment was caused by a malfunction in the wheel joint of one of the boxcars, the railroad said.

A detour built around the derailment scene Wednesday evening enabled rail traffic to continue uninterrupted through the area.

"Most people really didn't know how to react," said Pat Foskett, an 18-year-old college coed whose family lives near the site of the derailment. "We all felt relatively safe."

A neighbor, Mrs. Robert Willis added, "I suppose it's normal to worry when you hear the word 'bomb', but there was no panic. People figured it just happened and there wasn't much danger."

Left Homes

The Fosketts and Willises were among several families who decided to leave their homes after the derailment.

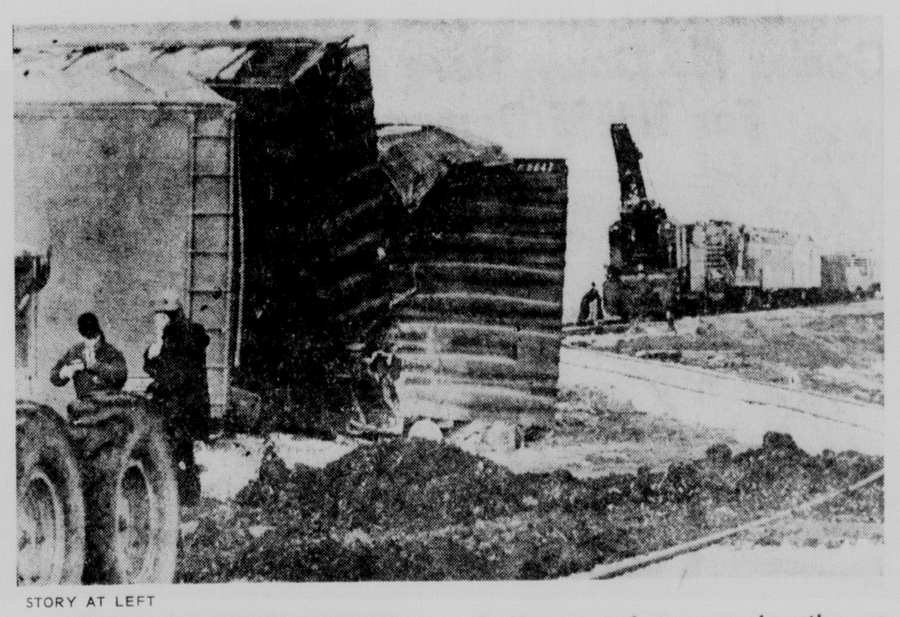
"It didn't bother me to walk among the bombs," said Aurora School Supt. Robert Cothren.

"There were people all over the place. Lots of TV cameras and officials. No one seemed worried."

Mrs. Willis conceded she never really had thought much about the possible danger of the many shipments of bombs that passed through Aurora on their way to Vietnem.

"But," she added, "I don't really mind it. They have to be transported somehow. And accidents do happen."

Railroad officials said there were a total of 98 cars in the train. More than 750 feet of track was torn up and bombs were scattered for 300 feet. The wreckage of the cars was strewn about for some 1,000 feet.



STORY AT LEFT

SHOO-FLY DETOUR TRACK . . . built around Aurora derailment site.

Spray Can Propellant Apparent Death Cause

Alliance (AP) — An 18-year-old Alliance youth home for spring vacation from a military academy was pronounced dead on arrival at an Alliance hospital about midnight and death was attributed to "suffocation caused by inhalation of toxic material."

The victim was Michael Patrick Johnson, 18, son of Mr. and Mrs. V. R. Johnson of Alliance.

Dr. Francis Hatch of Scottsbluff, who performed an autopsy Thursday, said the toxic material was a chemical substance which had not yet been fully identified Thursday, but it apparently came from the propellant in an aerosol spray can.

County Attorney Paul Empson, acting as coroner, called an inquest which began Thursday afternoon and was recessed until Friday when the taking of testimony will start. Meanwhile Sheriff Freddie Marsh is directing an investigation.

Taken To Doctor

Information obtained by the investigation indicated that Johnson was brought to the home of a doctor by three other youths shortly before midnight Wednesday and the doctor ordered him taken to a hospital.

At the hospital the youth was then pronounced dead and Empson and an Alliance marshal were notified.

Names of the other youths were not immediately made public.

Young Johnson was a high school senior at Wentworth Military Academy in Lexington, Mo.

Vietnam Vets Would Benefit From Sen. Curtis' Measure

Washington (AP) — Sen. Carl Curtis, R-Neb., has introduced a bill to "eliminate a very serious inequity" in determining the priority of ex-servicemen to obtion loans.

"This inequity denies to veterans of the Vietnam War the same loan preferences which are extended to veterans of all previous wars," Curtis said.

Curtis said he learned from a person who helps administer FHA loan programs that the laws providing for those programs discriminate against Vietnam veterans.

"The veterans of Vietnam have fought just as hard and in many cases just as long for their country as the veterans of previous wars," the senator said.

"They do not deserve to be treated as second-class veterans when they return to civilian life."

He said his bill would amend the Consolidated Farmers Home Administration Act of 1961 and the Housing Act of 1949 to give Vietnam veterans the same preferences as veterans of previous wars for farm ownership loans, soil and water loans, farm operating loans and home purchase loans.

Two Events Honor 'Gus' Danbom On 100th Birthday Anniversary

Hemingford (AP) — Hemingford arranged a double-barreled celebration for A.G. "Gus" Danbom Thursday on his 100th birthday. And the entire back page of the weekly Hemingford Ledger was devoted to an autographed birthday greeting with some 400 plus signatures.

An open house was held in Mr. Danbom's honor at the United Methodist Church Thursday afternoon and a family dinner with some 50 direct relatives was held Thursday night.

Special birthday greetings came from Gov. Norbert Tiemann of Nebraska and President Richard M. Nixon.

Mr. Danbom was born March 12, 1870, in Sweden and came to the United States with his parents at the age of 12. In 1910 the family came to the Hemingford area. Danbom was married at the age of 25. His wife died about five years ago after 70 years of marriage.

He still lives alone in the home he built in 1917.

Mr. Danbom was a farmer and a mason.

Bonus Plan Studied

Warsaw (AP) — Communist Poland is studying improvements in its bonus system for industrial workers to get the men interested in modern production methods, a government economist reported. On the other hand, it proposes penalties for managers who fail to reach production goals.

Trooper Hurt As Car Wrecks During Chase

A State Patrol trooper was listed in good condition at Lincoln General Hospital early Friday with injuries suffered when his patrol car smashed up during a high-speed chase near Malcolm Thursday evening.

The State Patrol identified the trooper as James L. Kelley of Seward.

The Lancaster County sheriff's office said Trooper Kelley's patrol car went into a ditch while he was in pursuit of another auto about one mile north and one west of Malcolm. The patrol car was a total wreck.

The car Kelley was chasing was not immediately located.

Dr. Balzer's Rites At Crete

Crete—Funeral services were held here Wednesday for Dr. Jacob R. Balzer, 85, retired Crete minister. He died Sunday.

DR. J.R. BALZER

Longtime Minister

Pastor of First Congregational Church in Crete for many years, Dr. Balzer received his A.B. degree from Carleton College later graduating from the Divinity School of the University of Chicago.

He served as dean of Bethel College, Newton, Kan., before joining the faculty of Carleton College in Minnesota. He came to the Crete church in 1937. From 1942-44 he served as dean and professor of religion at Doane and later taught sociology at the college. He retired from the ministry in 1961.

Dr. Balzer received many honors including Carleton College Alumni Achievement Award; Doctor of Divinity, Doane; annual alumni award, Bethel College; and minister emeritus UCC First Congregational Church.

Surviving are his wife, Alice; daughters, Mrs. J. F. Cantieni of Bethlehem, Pa., Wilma Balzer of Houston, Tex., and Mrs. J. R. McGrath of Bellevue, Wash.; a brother, a sister and seven grandchildren.

John Hlavacek Files For Office Of Congressman

Omaha (AP) — Television news commentator John Hlavacek announced Thursday his candidacy for the Democratic nomination for 2nd District congressman.

Hlavacek, a commentator for KMTV television for several years, is the second candidate for the nomination, joining Omaha public relations executive Robert T. Reilly.

They seek the congressional seat held by Republican incumbent Glenn Cunningham, who is running for re-election. John Y. McCollister of Omaha, a Douglas County commissioner, also is a candidate for the GOP nomination.

Hlavacek, who will be 52 on Friday, said he does not yet know whether federal regulations will require him to resign his post at KMTV. He came to Omaha in 1964 after 20 years as a reporter in the Middle East, Asia and Latin America.

Longtime NU Shepherd Esry Retiring

Some shepherds carry canes and watch their flocks by night, but William T. (Bill) Esry is a shepherd of a different sort.

Esry, who has been shepherd of the University of Nebraska sheep flock for 42 years, will retire April 1.

Wearing over-alls and a friendly smile, Esry has been a familiar figure over the years working in the NU Sheep Barn which recently was torn down on East Campus.

Esry said he was working on a farm in Kansas when he heard about the NU shepherd job through a friend. He applied for the job by mail and started working for the university, Nov. 1, 1926.

M. A. Alexander, retired university professor and Extension sheepman, said that Esry was one of the most loyal and hardest working employees during the depression.

"When there was talk about closing down the University, Esry worked for almost no salary and at great personal sacrifice to keep the University program uninterrupted he explained."

WILLIAM T. ESRY

Leaving His Flock

Efforts Praised

Alexander, who worked with Esry from 1931 to 1968, said, "It was through Esry's cooperation, experience and good judgment that the Nebraska Registered Sheep Breeders annual show and sale was developed." The show has been held annually since 1937.

Among Esry's other contributions to the university's livestock program were the high honors won by him when he fitted (exhibited) the university sheep at the annual American Royal Livestock Exposition in Kansas City.

As a sheep judge he was in demand by county, state and national shows in states such as Kansas, Oklahoma, and Iowa as well as Nebraska.

The sheep breeders of Nebraska also used his services and judgment in helping to collect rams for their flocks.

Although his job usually involved working a normal eight hour day, Esry admitted that "there were some days when it was a 24-hour-a-day job."

Esry came to the University in the early stages of campus development and as a result he has observed many changes.

The NU sheepflock has increased from 100 to 400 sheep during his stay here, Esry commented.

Dr. Ted Doane, NU associate professor of Animal Science, praised Esry's long years of service.

"He was an excellent manager," Doane said. "His main concern was the betterment of the livestock and he did this task well."

Cobb Lauds Changing Retardation Concepts

Nebraska News

By DEAN TERRILL
Southeast Nebraska Bureau

Beatrice — A national authority on mental retardation told Nebraska professionals here Thursday that "normalization" is becoming the key word in the field.

Dr. Henry Cobb of the University of South Dakota was keynote speaker to some 275 educators, psychological specialists and students from throughout Nebraska. Pershing College, which is developing a specialization in training teachers of the retarded, hosted the day-long study.

A past president of the National Association for Retarded Children and the International League of Societies for the Mentally Handicapped, Dr. Cobb noted that changing concepts toward the retarded add up to "a genuine revolution." This is true both in attitudes toward those afflicted and developing patterns of treatment.

"About 20 years ago, the attitudes changed from fear and repugnance to that of pity," said the South Dakotan, a vice president for academic affairs. "What is now the prevailing attitude is respect for the retarded as members of the human society, with rights of and a place in that society.

He explained that the concept of isolating the abnormal is giving way to that of modification through special services.

Heredity, which he said was once blamed almost exclusively for retardation, is now regarded as less significant than the environmental factors of disease, accident and injury. Poverty and social deprivation appear to be significant factors as well, he observed, since the abornmalcy rate in some ghetto areas is five times that of society generally.

Since IQ's have been shown to change significantly over the years, he warned against labeling school-aged individuals with such relative designations as "educable" and "trainable."

The conference placed considerable emphasis upon vocations in the retardation field. Among the possibilities explored were those of special education, rehabilitation and psychological counseling.

Gov. Norbert Tiemann told the group the field of mental retardation has been one of his priority concerns during his some three years as governor, "and the accomplishments achieved so far have provided me with one of my deepest sources of satisfaction.

"Already, national and even international specialists are visiting Nebraska's new programs and are studying its plans and its innovative developments," he reported.

Tiemann reviewed the recommendations which came from a citizens' committee on mental retardation which he appointed about three years ago.

At last year's legislative session, 13 bills on mental retardation were introduced, and all 13 were passed, he noted.

Comprehensive local programs are beginning to be developed across the state, with notable starts in Douglas and Lancaster Counties, he said.

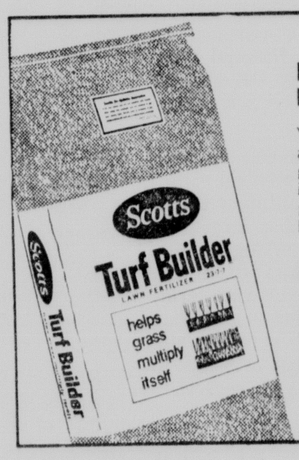
Additionally, he said, the law making education of trainable retarded children mandatory is now almost fully implemented. "This last service is probably one of the most valuable ones in terms of the amount of benefit derived, the number of families benefited, and the relatively modest costs involved," Tiemann said.

He noted that from over 2,300 residents about two years ago at the Beatrice State Home, the population has declined to about 1,800 today.

By a vote of those present, it was decided to make the conference an annual event. It will be scheduled again next spring.

It's the EarlyBird who gets the greenest lawn -and saves $$$ too!

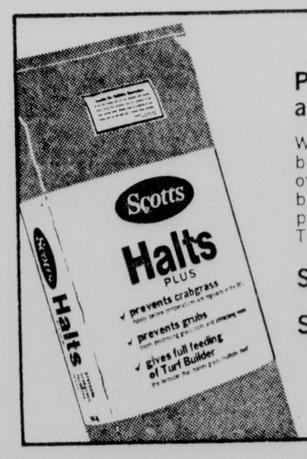
You may not be able to get on your lawn this week. But you can save dollars if you come down to one of the good stores listed below. Scotts EarlyBird Sale is in progress, and you can get America's favorite lawn products at pre-season prices. So no matter when you plan to use them, now is the time to buy and save (sale ends March 31). And you'll be on your way toward a 1970 lawn you can be proud of.



Enjoy a greener lawn this year

You can fertilize with Turf Builder as soon as you like, even on ground still frozen. It won't go into action until needed by the grass. And spring rains won't leach it away.

Save 50c 5,000 sq ft bag reg ~~5.45~~, now 4.95
Save $1 10,000 sq ft bag reg ~~9.95~~, now 8.95
Save $2 15,000 sq ft bag reg ~~13.95~~, now 11.95



Prevent crabgrass as you fertilize

With crabgrass, prevention is better than cure. An application of Halts Plus sets up a crabgrass barrier, and at the same time provides the equivalent feeding of Turf Builder.

Save $1 2,500 sq ft bag reg ~~7.95~~, now 6.95
Save $2 5,000 sq ft bag reg ~~14.95~~, now 12.95

If your lawn needs seeding

You now have your choice of seeding straight Windsor, the improved variety of Kentucky bluegrass, or either of two blends which include fine-leaved fescues for faster early growth.

Save $1 on 2,500 sq ft box
Windsor—reg 11.95, now 10.95
Blend 70—reg 9.95, now 8.95
Blend 35—reg 7.95, now 6.95

Total 1970 precipitation to date 1.15 in.

EXTENDED FORECASTS

EAST AND CENTRAL NEBRASKA: Clear to partly cloudy skies are forecast for the period Sunday through Tuesday. Little if any precipitation is indicated. The lows Sunday will be near 20, warming to around 30 on Tuesday. Highs will range from the mid 40s to the low 50s, possibly warming to near 60 on Tuesday.

KANSAS: The extended outlook for Sunday through Tuesday calls for mostly fair skies, with a slight chance of light rain in the east about Monday night or Tuesday. Highs will be in the low 50s, warming to the upper 50s or low 60s by Tuesday. Lows in the upper teens northwest to the mid 20s southeast are expected early in the period, but should warm to the mid 20s in the northwest to the low 30s in the southeast by Tuesday.

EVENTS

IN PERSPECTIVE

By WILLIAM O. DOBLER

Do you know what the biggest thing in the state is at this exact moment? No, it is not taxes, it is not highways, it is not education or any of the other big issues that constantly are paraded before us.

The big thing right now is the state basketball tournament. It's our own feeling that basketball doesn't quite measure up to football in spectator interest but when it comes to the state tournament, nothing beats basketball.

If you don't think so, you should see the latest issue of the Laurel Advocate. Laurel is a northeast Nebraska community of about 1,000 people, 110 or 115 miles from Lincoln.

★

Yesterday, the town was empty, all its citizens migrating to the University of Nebraska coliseum where Laurel and Lincoln Pius X opened the Class B tournament for the state title. The Laurel newspaper of March 12 devoted more than half its front page to five words: "Bears Going To State Tourney." the type was five inches tall.

Nothing but two sports pictures and the Laurel high school basketball victory record for the season was found on the page in addition to the giant headlines. Every dateline on every page of the paper carried the words "Go Bears."

If your household has never had in it a student from a school in the state tournament, you have missed one of the highlights of life. Winning the district tournament and being in the state playoffs is about the biggest thing most kids have experienced up to that time.

To them, it is every bit as big as the Cornhuskers playing in a national bowl on New Year's day. It is probably even bigger because high school loyalties are about as intense as anything could be.

★

Teenagers involved are so excited they can't sit still for five minutes at a time. They can't carry on an intelligent conversation, and the words spurt forth as if they are being shot out of a machine-gun.

These teenagers lose their appetites at meal time, although they are constantly eating hamburgers and drinking soft drinks at one place or another. They just can't settle down for a full meal.

Their eyes sparkle and their actions are quick and furious. There is simply so much excitement in them that they can hardly contain it all.

You have to wonder what kind of a world we would have if you could engender that kind of enthusiasm for such things as studies, a career, etc. But if that were possible, the world would be moving at such a rapid pace that it would be totally impossible to keep up with it. The young people would totally overpower and dominate society.

★

The sports world, of course, has its critics and the state basketball tournament would be no exception. No doubt there are some people who say that it is a waste of time to let the students out of class to participate in fun and games. After all, first things should come first.

But the fellow who puts work first all the time is likely to end up with a lot of troubles. He may have a peculiar and dull personality, for instance, or find his mental and physical capacities taxed beyond endurance at an early age.

And like most things, sports make a constructive contribution to the world. The state tournament teams have gotten there by a hard competitive route. They have gotten there by disciplines and the dint of long hours of hard practice.

They have gotten there by working together as a team, by helping one another and by maintaining their physical fitness. All of these things will be of lasting benefit to them. The teams and their fans are welcome in Lincoln and we are only sorry that all of them can't go home a winner.

'Do You Think The President's Gonna Fly Down Here And Apologize For THESE Demonstrators?'

A Thoughtful Campaign

Filing this week as a Democratic candidate for the Senate seat now held by Sen. Roman Hruska, Wallace Peterson has already made it known that a thoughtful campaign is in the offing. Peterson offers a sharp contrast to Hruska, the latter dedicated to the past and to entrenched interests.

Peterson has talked of the need for bringing more people into the mainstream of American life, giving them a greater part of the abundance of the nation. Senator Hruska is not against this, but he doesn't understand how it might be achieved.

Hruska stands for the kind of thinking which says that opportunity is all you need — avail yourself of it and you will be all right. But that ignores the fact that a lot of people never really have an equal opportunity because they have nothing with which to start.

They not only lack financial resources, but they lack the family background, education and social training by which they might take advantage of opportunities in the land. On the other hand, economic forces and the tax system often work to the advantage of those who have found success.

Tax writeoffs in abundance favor those in the high-income group while the average person pays through the nose on every dollar he earns. When inflation forces high interest rates and tight money, the poor people are hit the hardest and the well-off come away hardly knowing the difference.

Hruska simply favors those programs and that philosophy which is paternalistic in nature and which has now produced for us a multitude of problems. Peterson is in sharp contrast to this, seeking ways in which everyone can come to a fuller utilization of his potential and a higher realization of his dreams and his humanity.

Nixon's Second Choice

The case against Judge Carswell is growing in the U.S. Senate, but it appears that there will be no stopping him. The list of senators unofficially committed to opposing the nomination to the Supreme Court now stands at 37 and will likely not grow much longer. Blocking Carswell "is going to be tough," laments Sen. Edward Brooke. the senate's only Negro and a Republican who is sickened by the administration's civil rights record — or lack of it — to date.

There is too much at stake in America today, too much need for true talent on the nation's highest court to take a mediocre man just to get on with the business of filling a seat that has been vacant for almost a year.

The President's first choice to fill the vacancy — a man to whom the legal profession paid tribute as possessing the required attributes of temper and scholarship — was politicked out of the appointment. The President's second choice apparently will be politicked in. It is not necessary, the reasoning goes, to embarrass the President twice. Thus the nomination will succeed out of politeness.

It is entirely consistent with the Nixon approach that he picks an undistinguished judge to help pay off a political debt and keep a political promise. The appointment probably won't hurt America badly in the long-run — although it will give comfort to the new chief justice, who is not exactly a champion of individual rights — but Nixon could have done much better.

In the end, no matter what, Nixon could have gotten a southern conservative on the court. The most that could be hoped for was a judge who shows some capacity for growth, and the verdict on Carswell — from those qualified to give it — is that he doesn't.

MARQUIS CHILDS

'Benign Neglect' And Lamar

WASHINGTON — In the long and hate-stained struggle for integration of the schools, climaxed by the shame of Lamar, S.C., one encounter in particular stands out for courage and staunch resolution.

In the fall of 1957 a situation had developed at Little Rock, Ark., not unlike that at Lamar. The federal courts had ordered integration of the Little Rock schools, beginning with Central High School. When nine young Negroes sought to enter the school, a hate-inflamed mob of 400 white men and women booed and threatened them.

On orders of then Gov. Orville Faubus, the National Guard, called out by the governor, prevented the Negro students from entering. This was a direct defiance of federal authority. While the decision was unquestionably distasteful, President Eisenhower bit the bullet and took the only course that was open short of abdication.

As a new mob developed around the high school in defiance of the President's "cease and desist" proclamation, he ordered federal troops into Little Rock and federalized the Arkansas National Guard. A thousand members of the 327th Airborne Battle Group of the 101st Airborne Division were flown in from Fort Campbell, Ky. Faubus tried more evasive demagoguery with attacks on the President and on the troops. But in the end he played dead and the school was integrated.

☆ ☆ ☆

It is scarcely an exaggeration to say that through the Eisenhower and the Kennedy-Johnson administrations, pressure to integrate the schools was unremitting. Only through such steadfast and unfailing pressure has it been possible to hold the line and move forward.

That is the tragedy of the Nixon administration's backing and filling on integration. Their yearning, over-the-shoulder look at the past was bound to stiffen the attitude of those determined to resist school integration at any cost. By suggesting a slowdown and muffling the thrust of court orders, at the instigation of the attorney general, the cutting edge was dulled and the opening created for a last-ditch stand on the segregation line. One can compute the cost in the terror of those 39 Negro children in the buses that were overturned and destroyed at Lamar.

The curious performance of Sen. Abe Ribicoff compounded the confusion and uncertainty. Besides getting a handsome harvest of headlines, Ribicoff's stand against northern segregation in fact as well as southern segregation by law and custom gave respectability to the South's principal spokesman, Sen. John Stennis of Mississippi, and his amendment calling for application of desegregation uniformly throughout the nation.

The Nixon blessing for the Stennis amendment — a kind of now-you-see-it, now-you-don't blessing — added a little more smog to the already obscure atmosphere. A comic aspect was the way in which the Senate minority leader, Hugh Scott, got caught in the switches in an exchange with Sen. John Tower of Texas, one of the chief ball carriers for the southern strategy. A letter to Scott from the White House left the minority leader dangling in mid-air.

☆ ☆ ☆

To this one can only add the misfortune of Patrick Daniel Moynihan's purloined memorandum. His prescription for easing the strains and tensions made a certain amount of sense. But the phrase "benign neglect," which got the focus of attention as applicable to the Negro problem, is one that a counselor to the President should never use and particularly in an official document that was purloinable. "Benign neglect" has a haunting sound against the background of Lamar.

Courageous voices have been raised. Leon E. Panetta, appointed by the White House to be chief of civil rights in the Department of Health, Education and Welfare, performed an act rare in this city of entrenched officeholders. He resigned and charged the administration with promoting racial separation as an easy way out. He accused Vice President Spiro T. Agnew of catering to racism for political ends. But then Panetta added a moving assessment of this tragic moment:

"It is not just Vice-President Agnew. It is all of us. All of us have been raised in an atmosphere of anxiety and prejudice. All of us wonder what we would do if we had to send our children to black schools or if blacks moved next door."

How to get desegregation back on the tracks is the problem for the administration. Public statements deploring what happened at Lamar will not do it.

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

Double Standards

Lincoln, Neb.

This is an open letter to our United States senators, Mr. Curtis and Mr. Hruska.

In our opinion, Don Walton's "On Target" column in the March 9 Star, dealing with judicial appointments, is a journalistic masterpiece.

Judge Carswell's continued record and action of double standards make him even less desirable in this respect than rejected Judge Haynsworth.

Having served for eight years on a Nebraska District Court nominating commission, which met and studied desirable qualities of nominees to fill half of the bench personnel of this court, as well as attending a school session on this vital function of our government, it is the considered opinon of this writer that anyone who has espoused double sets of standards either in business or judicial decisions is unfit to sit on the bench of any court.

So we contend it would be a major tragedy to confirm this type of jurist for the highest court in the land for what appears to us to be for future political advantage.

Good government can never exist if we condone injustice or double standards.

However, on the plus side for Senators Curtis and Hruska, we do not believe it is possible to find a more desirable jurist to replace Judge Robert Van Pelt on the Federal District Court than nominee Warren Urbom. We say this because we are familiar with his temperament and sense of justice, having served with him on special boards and having observed his abilities as he practiced law.

Thank You

Lincoln, Neb.

For the past three months, the Lincoln Education Association has been sponsoring blood-typing stations which have been set up in all Lincoln public schools and the Public School Administration building.

These stations have been staffed by nurses from the Lancaster County Community Blood Bank.

The results of this huge cooperative L. E. A. and County Blood Bank effort were the typing of 713 possible new blood bank members. Of this number, some will be ineligible for various reasons; however, there should still remain a substantial number eligible for blood bank membership.

We would like to thank The Lincoln Star for fine coverage of this project, as well as Lincoln teachers, administrators and blood bank personnel who made it possible.

LINCOLN EDUCATION ASSOC.
PUBLIC RELATIONS COMMITTEE

Lincoln, Neb.

I would like to thank the men at Midwest Ambulance Service for spending so much time teaching first-aid to my Girl Scout troop. I'm sure each and every girl learned a great deal.

MRS. E. J. KALKWARF

The Proclamation

Hebron, Neb.

Reading the newspapers, listening to the radio and television and being in daily contact with people should cause one to ponder what the reply would be if President Nixon were to deliver on nationwide television tonight a proclamation stating that there was to be a day of nationwide fasting and prayer to thank God for our many blessings.

On March 30, 1863, such a proclamation went out across the land from President Lincoln, stating as follows:

"It is the duty of nations, as well as of men, to owe their dependence upon the overruling power of God . . . and to recognize the sublime truth, announced in the Holy Scriptures and proven by all history that those nations only are blessed whose God is the Lord . . . We have been the recipients of the choicest blessings of heaven. We have been preserved, these many years, in peace and prosperity. We have grown in numbers, wealth and power as no other nation ever has grown; but we have forgotten God! We have forgotten the gracious Hand which preserved us in peace, and multiplied and enriched and strengthened us: and we have vainly imagined, in the deceitfulness of our hearts, that all these blessings were produced by some superior wisdom and virtue of our own."

Problem In Abandonment Of Inner-Urban Dwellings

WASHINGTON — Just a few miles from Capitol Hill in Washington, there is a cluster of two and three-story apartment buildings set on rolling hills amid lawns and playgrounds. The buildings are of trim brick, but the only living things in most of the area are the trees and azalea bushes.

In the few that are still occupied, people live only on the upper floors in hope of escaping burglars who prowl the decaying neighborhood. The Congress Park development in Anacostia has become the symbol of what has been described as a new kind of urban crisis — the mass abandonment of inner-city buildings. Paradoxically, the collapse of the inner-city housing market comes at a time of a mounting shortage of low-cost housing.

In major cities across the nation — New York, Baltimore, Philadelphia, Washington, Chicago, Detroit and San Francisco — landlords are fleeing the inner-city along with many of their tenants. Houses and apartment buildings are being abandoned to vandals, drug addicts and arsonists. Landlords say they want out because maintenance costs and taxes are higher than rents. They also cite fear of collecting rents in crime-ridden neighborhoods and increasingly militant tenants demanding repairs.

If the trend continues, entire sections of America's cities could become ghost towns within five years, according to James C. Downs, Jr., chairman of Chicago's Real Estate Research Corporation. In New York City, alone, some 500,000 apartments are in a progressive state of decay. Landlords there desert more than 2,000 buildings a year.

☆ ☆ ☆

The nation has been warned often of the impending crisis. President Johnson's National Advisory Commission on Civil Disorders in its final report, March 2, 1968, cited conditions in the ghetto, particularly poor housing, among the underlying cause of urban rebellion. A year later, the National Commission on the Causes and Prevention of Violence echoed these findings.

The latest attempt to focus attention on the problem comes from the Revitalization Corps, a group consisting largely of suburbanites working to improve urban slum conditions. They plan a nationwide series of demonstrations — including a 72-hour vigil at the White House from March 13 to 15 — to get action on the two reports.

☆ ☆ ☆

For a decade, the federal government has been experimenting with subsidizing private business and nonprofit groups to build housing for the poor. But tight money and general lack of interest by builders in low-income housing stalled the programs. Although Congress approved four major housing bills from 1965 to 1968, it failed to carry through on the intent of the laws. Rent supplements and the model cities program were landmarks in national housing policy. But funding has been kept at a low level in comparison to the needs of the poor.

"Industry's zeal for social-action programs fades amid economic pressures," recently reported the Wall Street Journal. The National Corp. for Housing Partnerships, for example, finds corporate investors slow to put up the $50 million it seeks to finance low-rent housing. The private sector won't provide housing for the hard-core poor for the simple reason that there's not enough money in it. If roofs were made of rhetoric, America would be the best-housed nation in the world.

Calculated Neglect In Passenger Rail Service Points Need For National Transportation Network

NEW YORK — Now that the Penn Central has asked to abandon passenger service in what is almost the heart of America — the area between Chicago and Harrisburg — the scheme the railroads have been pushing for decades is nearing completion. With the collision of the Interstate Commerce Commission, which is supposed to protect the interests of the public, railroad passenger service has been all but sacrificed to profits.

This is not because passenger trains are inherently unprofitable in the era of the jet plane and the superhighway, or because there is no railroad riding public to be cultivated and served. It is because the railroads sought to make maximum profits by concentrating on freight-hauling and defaulting their obligations as passenger carriers.

At least since World War II, therefore, most lines have been deliberately discouraging passenger traffic through poor service, ill-kept schedules, filthy trains, insolent crewmen, archaic ticketing and reservations systems, outmoded station facilities, ancient rolling stock and steadily declining frequency and availability of trains even between major cities. To this catalogue of public horrors, the railroads added outrageously contrived financial "losses" on passenger trains for the sympathetic consideration of the I.C.C.

☆ ☆ ☆

An article in the New York Times by Christopher Lydon has detailed how accounting gimmickry made it appear that passenger trains had been losing huge sums since 1945 — when in fact passenger traffic was profitable, despite the decline in service, at least until the early sixties, and in the East until 1966.

And while it is true that throughout this period the government in one way or another was heavily subsidizing air and highway travel, Lydon pointed out that it was the railroads themselves who took the lead in asking the government to discontinue a major form of passenger-train revenue — federal payments for carrying the mail.

Thus, the railroads' disinterest in serving passengers, the complaisance of the I.C.C., and the lack of a coherent federal transportation policy, have combined to deprive the American public of what citizens of every other western industrial nation take for granted— adequate railroad service. And this has happened at a time when the automobile has become the worst polluter of the air, when airports and the air traffic lanes around important centers are dangerously over-crowded, when technology is exploding, and when the American people are the richest in history.

☆ ☆ ☆

The Penn Central's Metroliner has proved between New York and Washington the need for and the potential of convenient, comfortable, fast rail service in metropolitan corridors, of which there are many. The Seaboard Coast line's Florida Special on the New York-Miami run demonstrates every winter that there is still a demand and need for first-rate long-haul service over particular routes.

But the California Zephyr, which runs through some of the most spectacular scenery anywhere in the world, is apparently to be abandoned. Like so many other things of value in America, it's worth is not recognized by a careless people tragically exploited by those designated to serve them and to protect their interest.

The problem is not just to retain the spavined bones of an ancient and staggering passenger network as a sort of curiosity, like the few buffalo one can now see penned sadly in corners of the great range they once roamed in their vast and splendid herds. What is needed is a national transportation SYSTEM, providing safe and speedy air service everywhere needed, maintaining the great interstate highway grid, extending into similar corridors the kind of fast intercity service the Metroliner provides, maintaining and improving a serviceable minimum of long-haul rail routes to supplement air and auto travel and tourism.

That kind of integrated national transportation network is beyond the scope of a last-gasp bill that the Senate Commerce Committee is developing. But that measure would at least preserve, like buffalo, a last few passenger trains, placing them beyond the power of the railroads to subvert, providing some operating and equipment subsidies, and keeping alive the dim hope of better, safer, more convenient travel in America.

"Doris, I'm not surprised you got this recipe from a paper — that's what it tastes like — a wet newspaper."

Stiffer Rules For Petitions Urged

A subcommittee of the Constitutional Revision Commission has recommended to the commission a stiffening of initiative petition requirements for constitutional and statutory changes.

The recommendation would increase the number of citizens required to sign a petition calling for submission of an issue to a statewide vote.

The subcommittee proposed percentages of voters required as signers of initiative petitions be increased from 7 to 10% on enactment of a new law and from 10 to 15% for a constitutional amendment.

Five Months

The subcommittee, headed by Rodney Smith of South Sioux City, also urged the filing deadline for petitions be five months prior to the election, rather than four months.

Other subcommittee members are Sen. Ramey Whitney of Chappell, Phil Gass of Omaha and Mrs. James Weber of Lincoln.

The recommendations will be considered by the commission later, possibly at its March 17 meeting.

The 12-member commission was created by the 1969 Legislature to recommend constitutional amendments to the 1971 Legislature.

Other Recommendations

Other significant recommendations reported by the subcommittee:

—The present maximum of 50 legislators should be increased to 60.

—annual restricted sessions of the Legislature, as proposed in a constitutional amendment to be voted on in November.

—the Legislature should be allowed to set the salary of its members and receive per diem and travel expenses.

The subcommittee split on such questions as using voter registrations for Legislative reapportionment, whether the Legislature should be partisan or nonpartisan, and whether the lieutenant governor should be the presiding officer of the Legislature.

Stamps Planned

Ottawa (AP) — The Canadian post office department will issue special 10-cent and 15-cent stamps May 13 to mark the 25th anniversary of the United Nations, the government announced.

Johnson Files As Candidate For Secretary Of State

Vern D. Johnson, a 33-year-old livestock feeder near Cairo, filed Thursday as a Republican candidate for secretary of state.

Johnson will oppose Allen J. Beerman, incumbent deputy secretary of state, who has also filed for the GOP nomination.

Secretary of State Frank Marsh is vacating the office after 18 years to seek the GOP nomination for lieutenant governor.

Other filings Thursday:

—Michael B. Adams of Omaha for Legislature, 11th District.

—Joe Manto of Omaha for Legislature, 20th District.

—Dale L. Whitesel of Omaha for Legislature, 20th District.

—Marvin R. Platt of Paxton for Legislature, 44th District.

—B. E. Brown of Omaha for Legislature, 14th District.

—Leonard V. Brummer of Kennard for Legislature, 12th District.

CANDIDATE

Robert W. Mahoney, 57, a Lincoln businessman, has filed as a candidate for the Legislature in the 26th District. Mahoney, of 2210 No. 61st formerly owned and operated Bob's IGA Market in Bethany. A picture accompanying a story on Mahoney's filing in Wednesday's Star was of another Robert Mahoney, not a picture of candidate Mahoney.

Johannesburg Grows

Johannesburg, South Africa (AP) — City statisticians reported an increase of 21,000 in Johannesburg's population in 1969, to an estimated 1,181,321.

Student Is Candidate For Board Of Regents

A 23-year-old University of Nebraska law student filed Thursday for the Board of Regents from the Third District.

Signe Kim Lauridsen of South Sioux City said she filed as a candidate to give Northeast Nebraska and students a "greater voice" in the operation of the university.

Miss Lauridsen said as an NU student she has "witnessed waste and misdirection in the use of our tax dollars."

"There has been a failure to adequately list priorities at the university, which has led to wasteful expenditures in some areas while totally neglecting other areas so important to Nebraska."

Miss Lauridsen said her experiences as a member of the student body would be valuable as member of the Board of Regents.

"Only a student can learn things that a non-student never hears," she said.

SIGNE LAURIDSEN

Files For Regent

A graduate of Grinnell College, she is a junior at the NU law college.

Hussein To Visit

Amman, Jordan (AP) — King Hussein will visit Pakistan March 15-18.

Fade unsightly lip shadow ...in minutes!

nina blanchair

With Blanchair you can quickly, easily, safely, and in the privacy of your own home, fade unsightly facial hair. Unwanted hair is turned to pale blonde, to blend with your own skin tone, thus hardly visible. You needn't be embarrassed by lip shadow anymore.

Easy to use. Simply mix equal quantities of Nina Blanchair Gel and Blanchair Creme in your palm, then apply with fingertips. See positive results in 8 to 10 minutes (a second application may be required for stubborn hair). Then wash off with water. It's that simple.

Pleasantly fragranced. Since Blanchair contains no ammonia, there's no unpleasant odor, no danger of nasal irritation.

MAKES DARK HAIR PRACTICALLY INVISIBLE

First Official Family Planning Effort Here To Start Monday

The first official family planning efforts in Lincoln will start Monday morning as three outreach workers contact low-income families with information and offers of service.

Wednesday, March 25, will be the first clinic day for clients who seek more birth control information and free contraceptive devices.

Headquartered on the second floor of the YWCA building at 1432 N, the Family Planning Center is a delegate agency of the Lincoln Action Program.

Some $60,000 in federal funds have been appropriated to the YWCA to operate the experimental program for a year, according to center director Mrs. Rhonda German.

Clients, who must meet **poverty-level guidelines to participate in the program, may walk into the center or be referred by another agency even if they have not been contacted at home first, Mrs. German explained.**

Eventually the center would hope to expand its service to all citizens in the community from any income level, she emphasized.

The three outreach workers, Mrs. Sondra Zollicoffer, Mrs. Pat Four Cloud and Mrs. Florine Martin, will begin their contacts in low-income neighborhoods, explaining the family planning services and how to obtain them.

At the weekly clinics, Wednesday mornings 8 a.m.-noon, women will view a film on family planning, talk with the director or center nurse Mrs. Jean Gerhard about methods of birth control, have a pelvic examination and obtain a prescription for contraceptives from a volunteer Lincoln gynecologist.

Center officials will instruct women in using the contraceptive devices of their choice and be available for consultation at any time, Mrs. German asserted.

Prescription of birth control pills to single women will be "left to the discretion of the doctor," she said.

In the future, a weekly night clinic may be added to the schedule. Other plans of the center include a volunteer speakers bureau, community education program and a workshop for physicians and social agency personnel to acquaint them with family planning services, Mrs. German reported.

Mrs. German, who has been involved in family planning research at University Hospital in Philadelphia, Pa., predicted that once people are aware of the facility, they will be eager to take part.

Some apprehension is expected when people are first contacted, she said, because it is such a new program here. But it can be "very successful," she added.

Diphtheria Threat

San Antonio, Tex. (UPI) — Doctors warned that an outbreak of diphtheria could hit the city unless children receive inoculations immediately. Ten cases of diphtheria have been reported in the city during the last eight months. One of those victims died.

Music news is covered thoroughly in the "Sunday Journal and Star."

Wells Joins Contest For Treasurer

A third candidate seeking the Republican nomination for Lancaster County Treasurer, Arnold H. Wells, filed Thursday. Chief Deputy County Treasurer John Mozdzen and Dennis Lee have also filed for the post on the Republican ticket.

ARNOLD WELLS
Republican Challenger

Wells, 31-year-old abstractor with the Lincoln Title Agency, and partner in A&A Investments, said in filing that he felt he could perform a service to the public by "streamlining and economizing" the operations of the office.

He cited the areas of distributing license plates and speeding payment of real estate taxes.

Wells said that he felt the license plates could be distributed in more than one location as has been done in Douglas County in recent years. He further said that real estate tax payments could be speeded up by the use of machines rather than handwritten receipts now in use.

Wells, who is a graduate of Roca High School, attended the University of Nebraska at Omaha. He was an employe of the Lancaster County Register of Deeds office from 1963 to 1969, and is presently treasurer of the Lancaster County Employe's Credit Union.

He served in the Army Reserves from 1960 to 1966 and is a member of Second Presbyterian Church and Southeast YMCA.

Wells is married and has one daughter.

State Banking Dept. Is Moving Out Of Capitol

The Department of Banking will move from the State Capitol this weekend into new quarters in a nearby private office building.

State Banking Director Edwin A. Langley said Thursday the department is moving to the third floor of the Executive Building at 521 So. 14th.

The department will have 25% more space in its new offices, Langley said, citing cramped quarters as the reason for the move.

Langley said the lease cost of the office space was not immediately available because some remodeling expense is being computed by the building owner into the rental agreement.

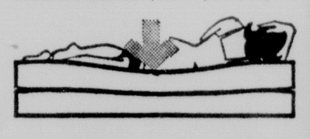
MANUFACTURERS SUGGESTED LIST PRICE

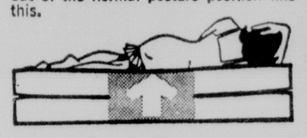
Here's what the International Chiropractors Association has to say about SPINAL-GUARD

"King Koil SPINAL-GUARD is the only sleep set designed and constructed specifically to meet the recommendations of the mattress committee of the INTERNATIONAL CHIROPRACTORS ASSOCIATION."

The new SPINAL-GUARD mattress by King Koil is zoned to provide more support in the middle of the mattress where the heaviest part of your body is.



This illustration shows your sleeping posture on a mattress that does not have adequate support. The center part of your body can actually sag down and out of the normal posture position like this.



Here's SPINAL-GUARD at work providing more support where it's really needed to keep your body in sleeping posture.

Secrets Of Famous Aritists—7

Colors Affect Each Other

By the Guiding Faculty of Famous Artists School Westport, Conn.

In the previous discussion on color we stressed the three characteristics of color. They are: hue, the name of a certain color; value, or its lightness or darkness; intensity, the brightness or dullness found in a color. With these in mind let's look at the influence and effect colors have on each other.

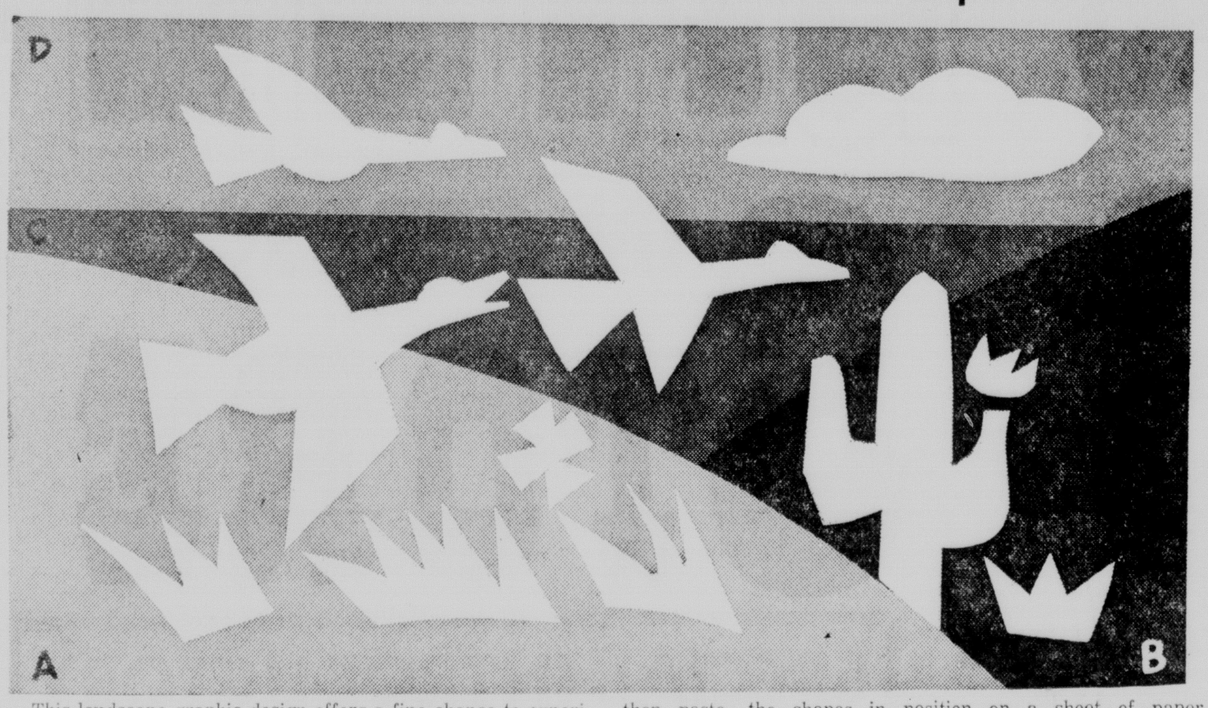
Color is like music in some ways. Separate musical notes do not mean much alone, but when they are placed in a special relationship to each other, a melody results. Colors also can be arranged to create an overall feeling — a melody of colors. The same musical notes placed in a different position can produce a new tune; a shift in the shape, amount and placement of color can create a completely new feeling.

You can experiment with the color effects and the effect each color has on another right in your own home. Develop your own color harmonies to find out what shapes, colors and color combinations interest you most and how they can help you make better, more expressive pictures. Use any colored paper you come across — construction paper from school, magazine pages, wallpaper samples or gift wrapping. Cut or tear various shapes, try different combinations. Shift the color pieces around, changing the shapes and proportions until you arrive at designs that seem pleasant to you. Then paste the pieces in position. Try many of them! Enjoy the fun of experimentation. You'll be surprised how interesting color can be.

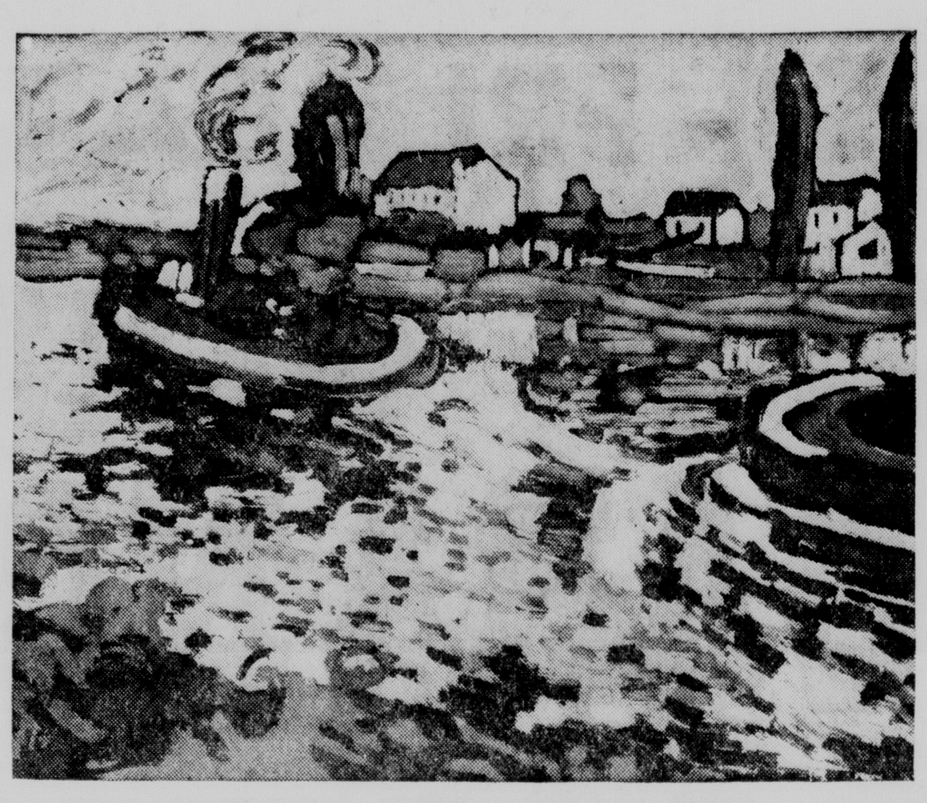
Next week: Attracting attention with color.

Copyrigth 1970 Famous Artists School, Inc., Westport, Conn.

Make Different Color Effects With This Experiment



This landscape graphic design offers a fine chance to experiment with color. Follow these steps to make a stencil based on this scene: (1) Trace the design on visualizing (tracing) paper. (2) Using your tracing, transfer the hill (A) onto a piece of yellow color-aid, or construction paper by going over the outline, pressing hard enough with your pencil to indent the paper underneath. (3) Do the same with shapes black, purple and light blue paper, respectively. (4) Cut, then paste, the shapes in position on a sheet of paper. (5) Finally, place your tracing over your landscape, transfer all the white shapes and cut them out with a sharp razor blade. Your picture should look exactly like this one, except the white shapes will be completely cut out in your design. You can cut out the white shapes separately and paste them in position. Try the same picture with different colors.

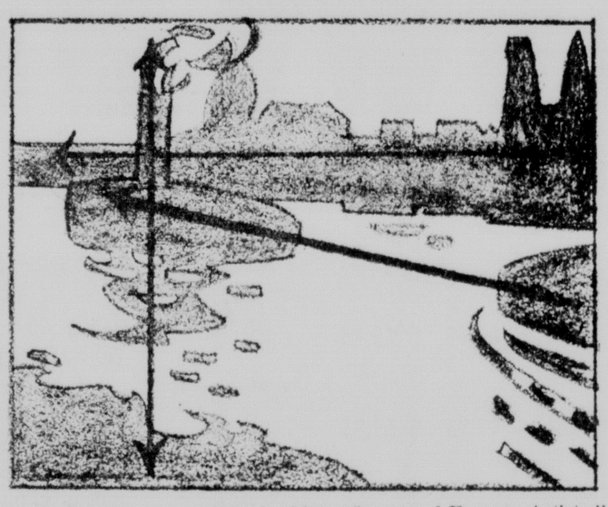


Color And Composition

The painting above, Tugboat at Chatou, by Maurice de Vlaminck, with its bright colors and broad brushstrokes, is a powerful example of the effect of color on the viewer. A bright orange, golden yellow foreground blends into strokes of blue, green and off-white oil paints for the water. The horizon landscape repeats the yellow gold with dabs of green. Vlaminck caught on canvas what he saw in bright daylight — colors shimmer and outlines are blurred. Like other painters of the Impressionist and Expressionist art periods, Vlaminck achieved the powerful effect of this painting with a "broken color" technique. His composition is greatly enhanced by the color.

Basically the composition consists of a firm horizontal element, a vertical and a diagonal (see diagram). The vertical mass, countering the horizontal of the far shore, is largely comprised of the color (red) dabs that begin in the curls of smoke, extend down through the tug and is shattered reflection, all the way to the lower edge. The diagonal is made by the slant of the river and reinforced by the areas of brilliant color (again red) striping the hull of the tug. The tug, naturally, forms the center of interest.

Increase your interest and enjoyment of art by looking for and appreciating the color and composition of great art in books and your local galleries and museums.



Order your copy of the booklet, "Secrets of Famous Artists," send $1 and your name and address and the name of this paper to Famous Artists Booklet, P.O. Box 2637, New York N.Y. 10017.

Nancy Hanks Will Appear At Dedication

The chairman of the National Council on the Arts and the National Endowment for the Arts will open the dedication of the University of Nebraska's Sheldon Sculpture Garden Sept. 11.

Miss Nancy Hanks was appointed to both posts last fall by President Nixon, the third woman to receive ranking status as a presidential appointee.

The council is made up of 26 prominent citizens and has an annual budget of $7 million to implement cultural projects. The National Endowment for the Arts has the responsibility of disbursing federal funds on advice from the council.

Miss Hanks is a former president of the Associated Councils of the Arts and a member of the council of the American Association of Museums. Since 1956, she has served as executive secretary of the Rockefeller Brothers Fund Special Studies Project, which in 1965 published the first comprehensive study of the performing arts in the United States, "The Performing Arts: Problems and Prospects."

A magna cum laude graduate of Duke University, Miss Hanks serves as trustee for New York City's Museum of Primitive Art, for Mary Biddle Duke Gallery for the Blind at the North Carolina Museum of Art, and for Robert College Istanbul, Turkey.

Miss Hanks' appearance will headline the two-month exhibition tracing the history of American sculpture that is planned to dedicate the sculture garden. It is the first such exhibition to be held anywhere in the United States, according to Norman Geske, director of the Garden and Sheldon Memorial Art Gallery.

The exhibition will utilize the garden area itself plus the interior of the gallery as well as four blocks of the Lincoln City Campus and four blocks of Lincoln's 15th St. mall.

TOWN TALK

The Suburban Accent Is On Travel

It's another one of those don't walk-under-a-ladder, black cat days — After today it will be two down and one to go — There's another Friday, the 13th, in November.

* * *

A number of days ago we mentioned that the Faculty Dancing Club had a party planned for this evening. The affair is a Shakespearean Costume Ball, but the festivities also touch on the Ides of March which, or course, really isn't until Sunday, March 15.

Anyway it is to be quite a spectacular event, and guest couples invited to participate in the festivities include Dr. and Mrs. Michael Turner, Dr. and Mrs. James Kramer and, for Dr. and Mrs. Nando Chatterjee there are two guest couples — Dr. and Mrs. Chak Rahvorty and Dr. and Mrs. Nirnal Mishra. Completing the guest list will be Mr. and Mrs. William Noel and Mr. and Mrs. Rudolph Wagner.

* * *

The members of the Fifty Fifty Club are shunning any Friday, the 13th activity as well as ignoring the Ides of March. They are, however, honoring St. Patrick's day.

It's to be a 'Shamrock' party on Tuesday evening, March 17, at Hotel Lincoln and, as usual, it is to be a dinner dance.

We suspect that at the close of the party the committee, which seems to have all of the details under control, will receive a round of applause. That committee, by the way, includes Mr. and Mrs. E. W. Ketelsen, chairmen; Dr. and Mrs. Wayne Harm, co-chairmen; Dr. and Mrs. Hubert Capek, Mr. and Mrs. James Clark, Mr. and Mrs. Sam Fieselman, Mr. and Mrs. William Mapes, Mr. and Mrs. Wayne Reese and Mr. and Mrs. Peter Baird.

According to the weather forecast contained in "Baer's Agricultural Almanac for the Year 1970," the weekend should be a rather unpleasant one, with "storms in the Rocky Mountain states across the plains and central states eastward through New England." However, even if this does prove to be the case and Old Man Winter once again tightens his grip on the Midwest in another attempt to forestall the inevitable arrival of spring, we have a feeling that the comings and goings in suburbia will not be hampered in the least.

Of course, it would be nice if we could have another weekend as balmy as the last one for those who, like Park Manor residents Mr. and Mrs. Glenn Shields and family, have some outdoor activities planned. Mr. and Mrs. Shields and children, Monica and Gary, will take to the road later this afternoon when they head for a weekend vacation in South Dakota.

During their sojourn which, incidentally, will be spent in Sioux Falls, they will be the guests of Mrs. Shields' parents, Mr. and Mrs. Wallace Matthews. Of course, they also will find time to visit with Mrs. Shields' brother-in-law and sister, Mr. and Mrs. Clarence Burns and children, Kip, Chris and Michelle, before they return to Lincoln on Monday.

Recently returning from a trip which took them all the way to the sunny west coast were Southwood residents Mr. and Mrs. Harold D. Warner and children, Vincent and Angela. The Warner family's vacation began on Friday, Feb. 20, and their first major destination was Las Vegas, Nev., where they enjoyed a visit with Mr. Warner's parents, Mr. and Mrs. Rolly Weber.

The Nebraska travelers also spent some time in California — in Pomona to be more precise — where they were guests at the home of Mr. Warner's brother-in-law and sister, Mr. and Mrs. Frank Lyons and family.

As far as Vincent and Angela were concerned however, the highlight of the trip came during their day-long visit at (where-else but?) Disneyland.

We should also mention the fact that during the Easter holidays — which are rapidly approaching — the Warner family will be rolling out the red carpet to welcome some out-of-state visitors. Arriving for a stay in Lincoln will be Mrs. Warner's parents, Mr. and Mrs. Orlando Friesen of Hillsborough, Kan.; and her sister, Miss Gaila Friesen of Hiawatha, Kan.

Host and hostess duties kept Mr. and Mrs. Richard Spreier and children Lonnie, Kristie and Sherrie, busy last weekend. In Lincoln for a visit at the Spreiers' Rosemont home were Mrs. Spreier's parents, Mr. and Mrs. Wilbert Marquart of Byron.

Mrs. Spreier was the center of attention on Sunday when she celebrated her birthday at a family dinner at home.

A bit of celebrating was also on last weekend's agenda for Mr. and Mrs. John W. Damke who observed their 11th wedding anniversary by dining out Saturday evening.

Trendwood residents Dr. and Mrs. Edward Rack entertained a number of guests at their home following the Lincoln Symphony Guild fashion show Monday evening. On hand for the after-the-show party were Mr. and Mrs. Jim Braeshears of Beatrice; Mr. and Mrs. Carl Chloupek, Dr. and Mrs. George Hanna and Mrs. James Austin.

Abby: take your own advice

Abigail Van Buren

DEAR ABBY: This is not so much a problem, as a letter to illustrate a point, because if it should become a problem I will have to work out the solution myself.

In a nutshell, I am a married man who has never condoned "fooling around." I've always considered such activites wrong and potentially dangerous. But now I find myself in the midst of an affair with a single woman. It developed gradually (at work) with a few light-hearted exchanges and some laughs. I never realized how far it could go, until it got there.

I don't want to end it, not yet, at least. With a few lies and half-truths at home, the situation manages with ease.

Just a word of warning to other "straight-laced" husbands like myself. There is no such thing as a harmless flirtation.

THE (POST) GRADUATE

DEAR GRADUATE: Since you are not willing to heed your own warning, you may expect the same kind of trouble you're warning other men to avoid. Doesn't make much sense. Your advice is so good. Why give it away? Use it yourself!

DEAR ABBY: About your hairdresser, Mr. Phyllis. You said what he did at home was HIS business. Well, the state law on beauty culture is not in agreement with you. It is illegal for a hairdresser to do hair outside the shop, unless it is marked as an appointment with a registered beauty shop.

FELLOW HAIRDRESSER IN MO.

DEAR FELLOW: Live and learn!!" **And from the mail I received from other states, I think it's the same all over. (Better give that wet noodle a permanent.)**

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Downtown 9:30-5:30, Thur. 10-9, Ph. 432-8511.
Gateway 10-9, Sat. 10-6, Ph. 434-7451.

No matter how you perspire

enjoy this guaranteed dryness*

Now Nina presents a truly effective *anti-perspirant* for all who perspire moderately—in convenient aerosol spray form! It has the most powerful *Anti-Wetness* agent that can be put in an aerosol spray can. It will keep you dry—luxuriously, confidently dry, even in times of stress or nervousness—if you perspire normally or moderately. Fully effective as a deodorant, too, and so easy to use! *And Nina authorizes full refund by dealer upon return if you are not entirely satisfied.

If you perspire moderately, get Nina Spray Anti-Perspirant, $2.50. Nothing—but nothing—ever put in an aerosol can will keep you drier.

For Heavy Perspiration

But frankly, if you perspire heavily, you need more protection than it is possible to put in any aerosol container. For you, Nina recommends Nina Anti-Perspirant, *liquid* or *cream*—with more Anti-Wetness agent than you can get in *any* aerosol can. Either the liquid or cream formula is the ultimate in perspiration protection. Each $2.50. Each fully deodorant too.

Guarantee

So completely safe for fine clothing that it has won the American Institute of Laundering's Seal of Approval. *And Nina authorizes full refund by dealer upon return if you are not entirely satisfied.

a tour of the shops

Spring is coming. Yes, by the end of next week, it will be officially upon us and right now all the Lincoln department stores are filled with spring fashions. Bright colors, pastels, sandels, swimsuits, straw hats and handbags and numerous other items throughout the stores provide the Lincoln shopper with an abundant variety of spring merchandise.

Feminine, soft, natural, are three words which perhaps best describe the look Hovland-Swanson's is showing for spring. A lot of this look is achieved with the new fabrics which include arnel, polyesters and silk and polyester blends. These fabrics are popular in solids as well as bold, flashy prints.

As for the waistline, it is "all over.." It may be high, in the middle or dropped and all three are good.

In accessories, crushed patent is a new look and it appears in handbags and shoes. New in gloves, which by the way, have returned, is the eight-button glove which goes up the arm, past the wrist. Hats are back, probably inspired by Coco Chanel.

At Brandeis, among the newest looks are the fringed ponchos. Found in the sportswear department, they are available in tapestry fabrics as well as sweater knits. Fringe is also shown on blouses.

Skinny knits which may be worn as dresses or as tunics over slacks are also popular at Brandeis. New in the junior sportswear department at Brandeis are bright print bikinis with matching plastic lunch box cases.

Individuality is the look this spring at Miller & Paine. Skirts stop anywhere above, below, or at the knee.

Pucker prints, in dusky colors like "bois de rose", are new at Miller & Paine. There are also flashes of exotic paisley and startling modern geometric prints.

Scarfs and pants are still big, in a little different way, say Miller & Paine. For a new fluid look, a scarf wraps around the head, gypsy fashion. Pants are still flared, with accordian pleats that give the impression of a skirt.

Pants, especially with a new Western-jeans cut, are also in the news at Magees. The look is seen in wool, knits, and denims. For the girl who wants to travel light and look good when she arrives, Magees suggest "the weekender" — slacks, skirt and long tunic top. The new washable polyester knits help keep everything shipshape.

"Anything goes" seems to be the theme at Ben Simon's this spring.

The "wet look" can be seen on just about every item imaginable. While it is especially popular in coats and jackets, it can also be seen trimming the cuffs and hemlines of many of the new spring dresses. It is also being used to accent the costume ensembles that are going to be extremely popular this spring. Belts, handbags, and even gloves can all be found in this new material.

In the lingerie department the big happening seems to be in colors. The most popular color for spring is a light lavender trimmed with a darker navy blue. And while tinted hose are still the rage this spring the opaque styles are going out and the more sheer feminine ones are in.

As we said earlier — anything goes and this is especially true in skirt lengths. While the midi length will be the fashion setter, it will be used mostly as an addition to a well rounded wardrobe. The designers in New York seem to be heading towards a "what's you" look.

Exercise Is Important

JOSEPHINE LOWMAN

This exercise is good for men who don't want to join the bay window brigade. Women can do this exercise, too.

Lie on your back with your hands behind your head, and your elbows bent forward on each side of your face, legs straight. Now pull both legs back to meet your elbows. Bend your knees as you do this. Straighten your knees and return to original position.

It is beginning to seem as if there really is something called spring and summer, and that they are not too far away. On certain days we get that certain feeling!

If you do not have a sport you enjoy, this is the time of year to think about adopting one. Not only do these allow you to eat more food without ruining your figure but they give your health a big boost and add zest to your outlook and personality. The companionship of friends and family is also fun.

Losing weight or maintaining your ideal weight depends on the ratio between calories spent by physical activity and caloric food intake. They should balance to maintain your weight, and the energy spent should be greater than the caloric value of the food you eat in order to lose pounds.

Many people who enjoy sports wish to know how many calories they use while having a good time. I often have requests for this information, therefore I am bringing it to you today.

1. WALKING-NORMAL: an hour's walk at a leisurely pace requires 216 calories.

2. WALKING-FAST: a brisk (3.75 mph) pace loses 168 calories in a half hour.

3. GOLFING: 18 holes (about 3 hours) consumes 900 calories — if you walk around the course.

4. TENNIS: two sets (1 hour) burns up 426 calories.

5. SWIMMING: twice the length of a 60-foot pool burns 10 calories.

6. WATER SKIING: a half hour consumes 240 calories.

7. CYCLING-NORMAL: A half hour's pedaling burns up 135 calories.

8. BOWLING: Strike or gutter ball, you use 4.5 calories per time.

9. SKIING: An hour on the slopes uses 594 calories and builds up endurance.

10. SKATING: An hour on the rink — ice or roller — burns up 360 calories.

11. TABLE TENNIS: A half-hour game uses 180 calories. Not strenuous, good for all ages.

12. CANOEING: an hour paddling at 2.5 mph burns up 130 calories.

13. VOLLEYBALL: a half hour uses 105 calories.

luxurious underarm dryness

When you discover **Mitchum Anti-Perspirant**, you enter a new world of underarm comfort and freedom. It keeps you drier than *any* anti-wetness agent ever put in an aerosol spray can! By anybody.

Even if you perspire heavily you will find that it gives positive protection—keeps underarms absolutely dry for thousands who could never find that protection before. If you perspire moderately, **Mitchum Anti-Perspirant** will give you a new sense of fastidiousness. Its positive protection does not grow less with use, but builds up. After the first four days of use, most women find that they need use **Mitchum Anti-Perspirant** only every third or fourth day regardless of bathing.

So whether you perspire heavily or moderately, doesn't it make sense to move up to the luxurious dryness of **Mitchum Anti-Perspirant.** With this positive protection you get complete gentleness to normal skin —complete safety to clothing. And full deodorant effectiveness, too. Liquid or Cream, 90-day supply if used daily, $3.00. Available at your favorite drug or toiletry counter.

for the special dress, dreams are made of!

A date to remember, a dress to remember . . . choose your formal at Simon's, from a collection of lovely spring fabrics in pastel colors. Junior sizes. Illustrated, just one of our favorites, pale yellow chiffon, with applique trim in white.

$30

SIMON'S DOWNTOWN & GATEWAY

The Men In Her Life

There are many men in the life of Dame Fashion, fickle lady that she is. Her main objective is to see that each of her favorite people has a choice when it comes to styles.

One might think that her current interest would be spring and summer apparel. It isn't. At the moment she is specializing on what the well-dressed male will wear in the form of a hat when autumn rolls around, and she has provided a variety of good-looking head cover-up-ers.

Take the one at top-left, for instance. It is a Christian Dior design, and is a basket weave plaid with bigger crown and wider brim.

At top right is a Dobbs hat — beaver with wide brim and a matching band.

The name of the hat at lower left is 'Gamebird'. It has a shaped brim and a feather lei band.

For the man who likes the casual look Dame Fashion shows the one at lower right. It is a shaped, casual style in tan corduroy.

KD Alumnae Plan Meeting

Mrs. Robert C. Wiechert, 1700 S.W. 9th St., will be hostess at her home Wednesday evening, March 18, when she entertains the members of the Kappa Delta Alumnae Association. The program for the 7:30 o'clock meeting will be a cosmetics demonstration to be presented by the Merle Norman Cosmetic Studio.

Assistant hostesses will be Mrs. Delbert Clements, Mrs. James Moeller, Mrs. E. A. Olson and Mrs. Earl E. Kraft.

Bridge: quiz day

OPENING LEAD QUIZ

The bidding has been One Heart on your right, Three Hearts on your left, Four Hearts on your right. Which card would you lead in each of the following five hands?

1. ♠983 ♥AJ4 ♦Q86 ♣AJ72
2. ♠K9742 ♥K53 ♦KQJ6 ♣5
3. ♠Q105 ♥765 ♦AJ4 ♣KJ82
4. ♠A8743 ♥942 ♦7 ♣J753
5. ♠QJ6 ♥A84 ♦986 ♣9874

1. Nine of spades. The bidding indicates that the opponents have about 26 high-card points. Consequently, there is very little left for your partner to have in the way of high cards. He is unlikely to have more than 2 or 3 points.

You have a good chance of scoring two trump tricks and a club, and also a reasonable chance of scoring a diamond or another club trick in addition, provided you don't jeopardize that chance by leading either of these suits. By elimination, therefore, you lead a spade because it is unlikely to do your side any harm.

2. King of diamonds. Here you attack the suit most likely to be declarer's weak spot. The aim is to establish two diamond winners and take two other tricks elsewhere.

An opening club lead is not recommended because partner is unlikely to have an ace opposite your 12 high-card points. Perhaps a club shift later on will succeed, but establishing diamond tricks right away takes precedence in your overall aim to defeat the contract.

3. Seven of hearts. You lead a trump largely because there is too much danger of costing yourself a trick by any other lead. It may also happen that declarer's ruffing power will be effectively reduced later on by additional trump leads.

4. Seven of diamonds. With only 5 points, you must count on partner for 9 or 10 points if the contract is to be defeated.

You are unlikely to score four tricks on straight power; it is more realistic to expect to win three tricks with high cards and a fourth trick with the aid of a diamond ruff. Even if the ruff never develops, the lead may force declarer to draw trumps at once to prevent it and in that way cut down on his own ruffing power.

5. Queen of spades. The best prospect is to play partner for the king or ace of spades and some side values. The less aggressive lead of either a diamond or a club may cause you to lose valuable time in the race to develop tricks. Of course, there is some danger connected with the spade lead, but a club or diamond lead would be even more dangerous.

Batchelder Challenged To Tell What He'd Cut

By DON WALTON
Star Staff Writer

Gov. Norbert Tiemann Thursday night challenged State Sen. Clifton Batchelder "to point out where he would cut (state) spending" if he were elected governor.

Batchelder's election, the governor told University of Nebraska Young Republicans, would usher in a policy of "retrenchment."

Rather than merely "turning back" state programs, the Omaha senator has "usually turned his back" on the state's needs, Tiemann suggested.

Been Listening

"I've been listening to what little the senator has had to say" since he announced that he would challenge Tiemann in this May's GOP primary election, the governor said.

Now, he suggested, the time has come for Batchelder to identify the programs he would cut and to give voters a look at "his plan to phase out the University of Nebraska."

Batchelder would almost surely "do away with research and extension" activities at the University, based on his past record, Tiemann said.

'Plain Lies'

Voters should realize, he said, that any candidate who suggests that "you can cut taxes and cut spending" without reducing state services "plain lies."

Tiemann's remarks, the strongest he has yet aimed at Batchelder and his candidacy, came in response to student questions.

"Those things we started in this administration have got to be brought to fruition," the governor said. "It would be a tragedy if those things ground to a halt now."

Tiemann pointed, in particular, to improvements in education, mental health and mental retardation services, highway development, corrections reforms and economic development.

Criticism that he has spent too much time traveling outside the state is misdirected, the governor said.

"I believe I have logged more hours at that desk than most of my predecessors," he said.

Accomplishments

"I think we should look at the accomplishments, and I would put the record of the last three years up against anybody's."

Tiemann said Nebraskans are "frustrated" with economic problems, chiefly inflation, as are other Americans. There is little criticism of state government costs, but citizens seem to "relate the entire tax bill to state government," and some "anti-quality education groups" (he named the Nebraska School Improvement Association) are helping stir tax protests.

"We have to gear this particular campaign . . . against this emotionalism," he said. "It is difficult to combat that attitude."

Limits Blasted

Initiative petition efforts to closely limit government spending would be "chaotic for education" and harness spending to the degree that "we couldn't even patch the holes in our highways," Tiemann said.

Students can help "carry the message to the people," the governor said. "If our efforts to provide quality education fail, highways, economic development, pollution control, all of that goes down the drain."

AEC Official Rejects Total Reliance On N-Power

A member of the Atomic Energy Commission who is a former Lincolnite said here Thursday that total conversion to nuclear power is not the answer for future power needs.

Theos J. Thompson said the AEC is trying hard to build alternative sources of power for the future. But he said experts don't know enough about nuclear power to depend upon it as a sole source of power in the future.

Addressing the Nebraska Wesleyan University Symposium on Nuclear Science, Dr. Thompson questioned whether the world's remaining coal and oil resources should be depleted much more than they are already.

In Right Direction

The current trend toward more nuclear power, he said, is, perhaps, a step in the right direction.

Thompson noted that the per capita use of electricity in the U.S. is rising with the level of per capita income, but he said, "Although the level of power use is often equated with the level of civilization, it is not an effective measure of the quality of life.

"The United States is now in a golden age that may not come again; we must know how we got here and how to upgrade what we have," he said.

He conceded it will be "tricky" to improve or even maintain the present level of civilization.

Thermal Pollution

Speaking on environmental problems, Thompson said the problems of thermal pollution from nuclear power plants are being dealt with as well as possible.

"Heat released into the stream water near nuclear plants has been proven to raise water temperature enough to kill or retard the growth of fish," he said.

Water temperatures in the Ohio River could rise to as high as 100 degrees in 25 years if cooling is not combined with power production, he said.

He noted cooling towers and cooling ponds are reequired in some instances before reactor plants are built. "By appropriate planning," he said, "proper stream utilization can be insured."

Complex Problems

In solving the problems of the environment, Thompson said, "We must understand the balance of a lot of complex things, because we can't change things once they are done.

"We must realize the consequences of any actions," he said.

Thompson is the son of Dr. Theos Thompson Sr., who was dean of student affairs at the University of Nebraska from 1927 to 1952. The younger Thompson is a 1941 graduate of the University of Nebraska.

New Hall Brings Dramatic Change In Sound And Performers' Morale

By RUTH ARDIS

The University Symphony Orchestra and the new Kimball Recital Hall were made for each other. The acoustics in the hall have brought about a dramatic change in both the sound and the morale of the performers.

This was even more apparent Thursday evening than in their opening concert in the fall. These well-trained young musicians under the direction of Emanuel Wishnow did full justice to the difficult music of Beethoven and Wagner.

Three faculty members from the School of Music — Arnold Schatz, violin; Priscilla Parson, cello; and Audun Ravnan, piano — joined the orchestra in an exciting performance of Beethoven's triple Concerto as a tribute to the 200th anniversary of the composer's birth.

It was also a tribute to Nebraska University's fine artists who performed this demanding work with technical polish and a refreshing spontaneity.

This work has never achieved the popularity of the composer's symphonies or other concerti, possibly because of the difficulty of finding three proficient soloists.

The Concerto, Opus 56, while standing between two of his monumental works — "Eroica" (symphony No. 3) and the Appassionata Sonata for piano — lacks the emotional warmth of most of Beethoven's works of that period.

Mr. Schatz and Miss Parson were heard to best advantage in the higher registers because of heavy scoring for orchestra. Their cantabile duet in the Largo was beautifully balanced.

Mr. Ravnan's well-articulated piano playing was a joy to hear. The sympathetic collaboration and support of the orchestra was admirable throughout.

Prof. Wishnow drew a professional sound from his group of young musicians with their dramatic reading of "Vorspiel and Isolden's Liebestod" from Tristan and Isolde by Wagner. The cello section produced an especially lush sound which produced a good foundation for the rich sonorities and the surge of the climaxes.

Robert Jenkins, sophomore in the School of Music, was oboe soloist with the strings in Barlow's "The Winter's Passed." The performance once again showed the excellence of Jenkins' technique and musicality.

Concertmaster Sally Schulz and principal cellist Beth Babb were also featured in short solos during the work.

Auber's "Overture to Masaniello" and Dvorak's "Slavonic Dance No. 8" rounded out a most successful concert.

Loup City Gets $154,904 Grant For OEO Plans

Washington (AP) — A $154,904 grant from the Office of Economic Opportunity to the central Nebraska Community Action Program in Loup City, Neb., was announced Thursday by Rep. Dave Martin, R-Neb.

The program serves Greeley, Howard, Valley, Sherman and Custer counties. George C. Haynes of Loup City is program chairman.

Martin said the grant, for 12 months, is to cover program administration, neighborhood center operation, community organization, economic development and senior citizen service programs and activities.

Aga Khan's Wife Said Expecting

London (AP) —The Daily Express reported Thursday that the wife of the Aga Khan, the former Lady Sarah Chrichton-Stuart, is expecting a baby in September.

Prince Karim Aga Khan, 33, Harvard-educated spiritual leader of 20 million Ismaili Moslems, and Lady Sarah, 29, a former model and daughter of a British Bengal Lancer, were married in October.

LCLU Backs City Pollution Proposal

The Lincoln Central Labor Union voted unanimously Thursday night to support the anti-pollution ordinance proposed by the Lincoln Water Advisory Board.

ASTROLOGICAL FORECAST

☆ By SIDNEY OMARR ☆

Forecast For Friday

Capricorn persons are reserved but no less loving or giving than any other zodiacal sign. Time is on the side of these persons. They can play with it, bide it, wait with it and flourish when the time arrives.

☆ ☆ ☆

ARIES (March 21-April 19): If travel you must get numbers straight. There is tendency today for you to be absent-minded. Calls, appointments, dates could suffer as result of confusion. Double check directions.

TAURUS (April 20-May 20): Financial dealings require scrutiny of specialist, expert. Don't fall for tall story. Get the facts and let the flattery go. You have a right to protect yourself in the cinches.

GEMINI (May 21-June 20): Cycle remains on top. But your public relations could use an overhauling. You mean one thing — but give impression of something different. Clarify situation with mate, partner.

CANCER (June 21-July 22): A new resolution is one that you can and will keep — affects work and health. Promote your own cause. You can do this without being selfish. Strive for self-esteem, not arrogance.

Leo (July-23-Aug. 22): Some friends try to aid in fulfillment of desires. But it turns out that you do the helping rather than vice versa. This is fine. You feel better. You are a better host than a guest. Ride along.

VIRGO (Aug. 23-Sept. 22): Your judgment of property values could leave something to be desired today. You may be letting imagination run away—without restraints. Look ahead, but also get money's worth now.

LIBRA (Sept. 23-Oct. 22): You get chance to break from routine. Can be exciting but also costly. Accent on journevs, writing, publishing, creative urges put to practical use. Play game according to rules.

SCORPIO (Oct. 23-Nov. 21): You found out things yesterday. Now, today, have courage to utilize information. Means don't backtrack. Go to source. Then you will find that crimps, entanglements vanish.

SAGITTARIUS (Nov. 22-Dec. 21): Best to let others do the asserting. You are at your best today gathering rather than dispensing information. Family member can prove a wonderful ally. Respond accordingly.

CAPRICORN (Dec. 22-Jan. 19): Your illusions can be beautiful. But today you can be a victim of self-deception — if you so permit. Strive to see people, propositions in realistic light.

AQUARIUS (Jan. 20-Feb. 18): You will find that it is difficult to hold emotional reins. All the way or nothing — that is the key. Strive to fulfill commitments. But also make room for logic.

PISCES (Feb. 19-March 20): Spread influence. Strive to build public image. Analyze what it is you really desire. Then take steps to reach goal. Finish what you started in recent past.

IF TODAY IS YOUR BIRTHDAY you are more practical than many give you credit for being. There is much inner strength. You are going to be happier in domestic area.

(To find out more about yourself and astrology, order Sydney Omarr's 50-page booklet, The Truth About Astrology. Send birtrdate and 50 cents to Omarr Booklet, The Lincoln Star, Box 3240, Grand Central Station, New York, N.Y. 10017.)

NU Ivy Day Observance Streamlined

One of the University of Nebraska's oldest traditions, Ivy Day, will have a new look when it is staged on the Lincoln campus May 2.

Members of Mortar Board and Innocents, senior honoraries at the university, are planning to streamline the program to fit a three-hour time interval in the afternoon. In past years, the program began about 11 o'clock and continued until mid-afternoon.

The 1970 Ivy Day observance will begin at 1 p.m. with a concert by the university band followed by entrance of the Daisy Chain, the Ivy Chain, and the queen and her court. Several choral groups from the School of Music will present musical selections.

The program will conclude with tapping of new Mortar Boards and tackling of new Innocents.

JUST $3 A WEEK!

We'll even recommend a good piano teacher for your child. If things don't work out, you can return the piano. If you decide to keep the piano, your rental goes toward the purchase. And we're almost sure your little girl will want to keep it. Baldwin brings out the talent she got from your side of the family.

State Asks Court To Set Parker's Bond Aside

State Assistant Attorney General Ralph H. Gillan filed an application in U.S. District Court Thursday asking that bond for Darrel F. Parker be set aside.

Parker, 37, convicted of first-degree murder in 1956 in the strangulation slaying of his wife, is currently free on $5,000 bond while his appeal is being decided in courts.

The former city forester's conviction had been overturned last fall by the U.S. Eighth Circuit Court of Appeals on the grounds that his confession to the murder was coerced.

But the U.S. Supreme Court ruled in January that state courts should have been given a chance to decide on the voluntariness question before the case entered the federal courts.

Gillan, in his application, argued that bond was allowed by U.S. District Judge Robert Van Pelt in December because the conviction had been voided by the appeals court at that time.

But since the Supreme Court's action, the assistant attorney general said, the conviction of first-degree murder is still valid and Parker should not be free on bail.

Currently the case awaits action by the District Court of Lancaster County to give Parker a "Jackson vs. Denno" hearing to decide if the confession was voluntary or coerced.

Van Pelt ordered Tuesday that the District Court set the hearing within 90 days from Feb. 27 or Parker will be set free on a writ of habeas corpus.

If the District Court hearing decides the confession was coerced, Parker must be given a new trial, but if the finding is that it was voluntary, then the conviction stands but Parker can renew his appeals.

Number Seeking Work Up; Openings, Placements Down

Figures released from the Lincoln Employment Service Office show a definite increase in the number registered for work and a sharp decrease in both openings and permanent placements for February, as compared with January and with February 1969.

An estimated 2,200 persons were registered for work in February, showing a 16% increase of job seekers over January and an 8% increase over the same month one year ago.

With others pending, an estimated 280 permanent placements were made in February. This is below the number placed on jobs during January and down 23% from February 1969.

Thirty per cent fewer openings were received in February than in January. The number was down 21% from a year ago.

According to a report from the Nebraska Department of Labor, Division of Employment, several new industries have shown interest in locating in Lincoln, which will take advantage of available worker supply.

Lincoln Carpet Mills, Inc. has indicated it will employ approximately 100 persons within 18 months. The Independent Postal Systems of America recently initiated Lincoln operations with 40-50 employes, and plans to employ 90-100 workers by year end.

Those registered for work at the employment office were classified: professional, technical and managerial, 11%; clerical, 24%; sales, 7%; service, 17%; farming and related, 1%; processing, 1%; machine trades, 4%; bench work, 6%; structural work, 11%, and miscellaneous, 18%.

Forty-eight per cent of those claimants drawing unemployment insurance benefits were formerly construction workers; 23% were in manufacturing occupations; 13% were in trade, and 8% were in the service.

Teller Learns It's Not Bluff

Rosemead, Calif. (UPI) — A man walked up to the window of teller Kyle Smith at First City Bank, demanded money and said he had a gun.

"I don't believe you," said Smith. The man opened his jacket and showed a gun tucked in the waistband of his trousers.

Smith handed over $740 and the bandit fled.

Asia's First International Exposition To Open Saturday

Osaka, Japan (UPI) — Emperor Hirohito will make an inaugural address, 77 nations will raise their flags — and Japan's proud Expo 70 will be formally opened Saturday for a six-months' stand.

The opening to the public comes Sunday and the first of what authorities hope will become a total of 50 million visitors will throng onto the grounds of the first international exposition ever to be staged in Asia. This one cost $2.9 billion to set up. Its official theme is "Progress and Harmony for Mankind."

Aside from Japan, the big spenders among the exhibiting nations are the United States and the Soviet Union. The sickle-shaped Soviet pavilion will be the tallest building, rising 360 feet. The American pavilion, which has been described as a "soggy waffle," will be the lowest building at the fair.

The exhibitions aimed at winning the hearts and minds of the fairgoers will include such disparate items as America's moon rocks and the uniform of the late home run king, Babe Ruth. The Russians will fight back with their own science show and the piano used by composer Peter I. Tchaikovsky.

The 815-acre site lies 10 miles northeast of Osaka, a bustling commercial and industrial center 310 miles southwest of Tokyo.

Emperor Hirohito and Empress Nagako are to enter Festival Plaza at precisely 11 a.m. after Hirohito's address to an expected 12,000 special guests, five howitzers will fire a salute, huge fountains will spout jets of water and the flags of participating nations will be raised.

Expo publicity chief Kazuo Akiama explains Expo's theme this way: "Progress is an occidental comcept, Harmony is an Oriental one. We view our exposition as a bridge between the two cultures."

GOP Party Involvement Policy Urged

By the Associated Press

The Nebraska Republican Party Central Committee has been called upon to set down a policy on party involvement in primary election campaigns.

The request came from Jack Langford, an instructor at Kearney State College and a previously announced candidate for the Republican nomination for governor.

Langford sent a letter to State GOP Central Committee members saying "there is a serious controversy within our party" as to whether the action in the current primary election is in accordance with party policy.

A former Navy officer, Langford has dropped out of the gubernatorial race and has indicated support for Omaha State Sen. Clifton Batchelder of Omaha, who is running against Tiemann for the GOP nomination.

Langford said in his letter that "if the Central Committee ignores the matter of primary election policy the controversy will continue to divide the party in a crucial election year."

Vote Suggested

He urged committee members to refer the matter to the central committee for discussion and vote "at the earliest possible date."

State Chairman Lorraine Orr of North Platte rejected Langford's request for a committee meeting on the issue several weeks ago. Before Langford got out of the governor campaign, he objected particularly to party promotion of a fund-raising dinner for Gov. Norbert Tiemann which grossed about $125,000.

Included in a package of material sent to committee members was a form letter which committee members could sign and return to Mrs. Orr.

It requested her to refer to the committee "the current controversy within the party concerning funds raised for personal campaign expenses of incumbents being credited toward county quotas . . ."

Sixth Omaha Meat Plant Due To Close

Omaha (AP) — Another Omaha meat packing plant has announced plans to close.

James O'Neill, president of the O'Neill Packing Co., operator of the B. Rothschild and Co. plant in South Omaha, said the plant will be closed April 1.

O'Neill said about 25 persons compose the work force.

The April 1 closing will be the sixth since 1956. O'Neill blamed "current economic conditions" for the closing.

New Chrysler Facility

Denver (AP) — Chrysler Corporation plans to build a new facility here to serve owners of 217,000 Chrysler built cars and trucks in Colorado, Wyoming, South Dakota, Nebraska, Kansas and New Mexico.

Flames Damage Mattress Firm, Two Houses

Omaha (AP) — No one was injured in a two-alarm fire that damaged the Stahn Mattress Co. building and two adjacent houses Thursday.

Firemen battled the blaze for about an hour before bringing it under control. They said it started in the factory area at the back of the building.

Workers were out of the building having lunch at the time the fire broke out. The flames spread to a house that had been converted into an office for the company and to another home. There was no one in either house.

POSTCARD by Stan Delaplane

"With open mouth he drank the sun
"As though it had been wine."

Sunny days of spring are here. The Princess And The Pea story was on TV the other night.

Our youngest daughter can hardly wait to sleep on a pea. See if she bruises. It would show hidden royal blood.

I said: "They mean hard dry peas. Like we used to have when I was a boy. I don't think they even have those anymore."

"However," I said. "I could get you a can of peas. You could sleep on the whole can."

The Silver Fox of Shady Acres.

☆ ☆ ☆

We had no TV dinners when I was swinging on a gate. Grandma bought potatoes by the bushel and peas by the peck. Crackers came from a barrel in the grocery store. They were sold by the pound.

Everybody put up their own jams and pickles.

I said: "We did not have Captain Crunch and Sugar Pops and all the goodies you have. We got oatmeal period."

She said: "Yes, but you had peas to sleep on."

☆ ☆ ☆

Were those the gold old days? There was no talk of pollution. Henry Ford had just put the Model-T in reach of a lot of people.

I suppose the exhausts put fumes in the air. But you couldn't put much. You couldn't go anywhere much. The roads were not paved. Adventurous people took a tow rope so they could get a farmer to pull them out of mudholes with his horses.

The grocery man, the iceman, the milkman, delivered in wagons pulled by horses. The streets were a mess.

☆ ☆ ☆

I said: "And we had no TV." We had radio though. Radio — wireless we called it then — was just coming in.

We made our own. We wound bare copper wire around a Quaker oats carton. (The same we got the morning oatmeal from.) We put a brass road on top of that with a siiding contact. That was the tuner.

We hooked into the station with a crystal of galena, touched with a fine wire called a cat's whisker.

WKE LISTENED WITH EARPHONES. The wire-to-galena hissed softly in our ears, until we touched the hot spot. And miracles — music! From a hundred miles away on a good night.

Amateur operators buzzed in with a hopeful, "CQ, CQ." Calling anybody who wanted to communicate.

☆ ☆ ☆

It's a sobering thought — what kind of world do we turn over to our children? "An ice age,", says a scientist. "No air to breathe," says another.

We couldn't know as our Model-T put-putted down the unpaved road just where we were going.

There were so many miles of empty land. So much flowing water. So much untouched air.

(The long farming valley where I grew up is filled with subdivisions. And I can no longer find the swimming hole on the river where we jumped in, bare as a radish.)

☆ ☆ ☆

I said to the girl child: "I must tell you that I secretly hid a pea under your mattress last night. Turn around," I said. "Yes, just as I thought. You are black and blue. You are a true princess."

She said: "Are you sure?"

I said: "At long last, it must be revealed. All hail Her Majesty."

She said: "Really truly? I don't believe it."

I said: "Would I lie to you? Now wash your face and go to school."

City 'Should Issue' Anticipation Notes

. . . For Capital Improvements

Anticipating a favorable bond market situation in the future, the Capital Improvements Finance Advisory Board Thursday recommended to the City Council that the city immediately issue $1.35 million worth of bond anticipation notes.

Funds from the notes would be used to finance the two branch libraries, two fire stations and the paving repair and storm sewer maintenance facility for which voters last year approved issuing a bond.

The issuance of the notes, according to City Finance Director James Mallon "would allow us to expedite action in getting the projects constructed."

Within A Year

The proposal outlined by Mallon at the meeting calls for issuing the bonds later, "when the bond market is right." The bonds, he said, would be issued within a year and would be used to pay off the bond anticipation notes.

"This procedure would allow us to wait until the market situation is stabilized," the city finance director said, adding that the city would save money under such a plan.

Mallon said the council will be asked at its next Monday meeting to authorize the issuance of the notes.

Now Is The Time

He said that now is the time to issue the notes, pointing out that the interest rate is starting to look more favorable. He said that the city could probably issue the notes for one per cent less than the bond interest rate, adding that "Lincoln could probably sell its bonds on today's market for around 5.85% to 5.95.%"

Although voters approved a bond issue for the projects and another $1 million for storm sewers, the city has not been able to issue bonds because of the bond market situation. Interest rates soared after voters approved the bond issue, according to Mallon.

Mayor Sam Schwartzkopf said he wholeheartedly endorses Mallon's proposal, adding that should the council also back it, "plans for the two fire stations and the paving repair facility would be started as soon as the city would receive the money from the notes."

The mayor had earlier told city officials to wait on the preparation of plans for the two projects, until after the city received funds for the projects.

To Name Architect

He said he would name an architect to prepare plans for the fire stations, which will be located at Touzalin and Benton and at 48th and Claire, a week after the notes are issued.

Only action on the paving repair facility to date has been to start negotiations for the land. The site under negotiations, Public Works Director Robert Obering said, is east of 27th St. and north of Leighton.

Planning for the two branch libraries is already under way but has been confined to the architect's preparation of preliminary drawings.

Library Director Charles Dalrymple said that if the council approves issuing the notes, the board probably will instruct the architect to preapre the working drawings and bid specifications as soon as the preliminary plans are ratified by the board.

"The board will meet next week to act on the ratification of the preliminary plans," Dalrymple said.

SOPHIA'S ARMFUL OF LOVE

Actress Sophia Loren holds in her arms her son, Carlo Jr., as she introduces him to newsmen invited Thursday to visit her 16th century villa in the Alban Hills outside Rome. The occasion was to prepare for the world premiere of her latest movie, "Sunflower," at the Rome Opera House. Carlo will be 2 years old in December. His father is movie producer Carlo Ponti.

U.S. 'Should Assume' World Leadership Role

By LUCILLE HOWARD
Star Staff Writer

The United States is "going to have to learn to live with the fact that this country is out in front of world leadership," a State Department official declared here Thursday.

The role of world leadership will be a new one for the people but the nation should accept it, Ambassador Clare H. Timberlake said.

Although the U.S. "didn't strive to become world leaders," the country was "cast into the role by historical design," according to Timberlake.

If the U.S. doesn't assume the world leadership role that it is ready for, another country will, the ambassador said.

For ETV Appearance

Timberlake, commenting on foreign policy at a news conference, was in Lincoln for an appearance on a television program produced by the Nebraska Educational Television Council for Higher Education.

He met with several groups of students at the University of Nebraska and answered the questions of some students on the videotaped program.

Timberlake was assigned to the State Department's Bureau of Public Affairs, a speaker's bureau, after 40 years of diplomatic service in most parts of the world.

New Policy

Although the ambassador contended that the U.S. should assume a world leader role, he indicated that its new policy toward Latin America is to "lower our profile internationally."

The U.S. emphasis will be on Latin and South American countries taking the lead in solving their problems, rather than the U.S. "tending to lead out of a desire to be helpful."

"We are not headed toward a world government," the ambassador asserted. "There is too strong a feeling of nationalism in all countries."

However, that does not mean that countries shouldn't cooperate in world organizations such as the United Nations.

Only Way

On other matters, Timberlake commented that "honesty is the only way to run diplomacy . . . That doesn't mean that you disclose all your cards when you go into negotiations . . . But 98% of diplomacy is on top of the table."

The Middle East situation "harbors more potential trouble" for the world than any other problem because "Russia is committed there directly and several countries are involved," in contrast to the Vietnam war.

"There are solutions to the Middle East problem if both sides would be reasonable in talking about them," he said.

Loder's Trial Halted Briefly

. . . 'For Legal Matter'

Omaha (AP) — The manslaughter trial of former Omaha Patrolman James M. Loder adjourned abruptly at mid-afternoon Thursday, to reconvene at 9:30 a.m. Friday.

Special security for Loder is to continue Friday, Sheriff Ted Janing said. It has been officially confirmed that Loder, 21, has reported a recent threat on his life.

Judge Lawrence C. Krell told the all-white district court jury that the adjournment Thursday was because of "a purely legal matter that has arisen." Krell had no further comment, saying later at brief news conference that it might never be made public.

Comment Withheld

County Atty. Donald Knowles and Deputy County Atty. Lawrence Corrigan said the judge instructed them to withhold comment on the adjournment. Loder's attorneys said they received similar instructions.

Asked by newsmen if there was the likelihood of a mistrial, Krell said, "A mistrial is always a possibility. I'm not saying this is what we have here. But it's always possible."

Companion Suits Totaling $156,150 Filed In Accident

Companion suits totaling $156,150 were filed in Lancaster District Court Thursday against David L. Novak in connection with a Jan. 29, 1970, accident at 27th and Holdrege.

The plaintiffs, Estella Frazer and Jean Frazer, allege negligence on the part of the defendant when the car he was driving collided with a car driven by Jean Frazer in which Estella Frazer was a passenger.

They allege the defendant was negligent in failing to yield right-of-way, in not having his car under proper control and in not maintaining proper lookout and that he was traveling at excessive speed.

According to the petitions, Estella Frazer suffered a cerebral contusion with brain stem damage as well as fractures, lacerations and abrasions as a result of the accident. Jean Frazer alleges she received bruises, contusions and abrasions of the legs and face.

Man Is Sought In Connection With Bad Checks

A man driving a car bearing Oregon license plates was being sought by police Thursday in connection with bilking a Lincoln bank of more than $1,000.

Police said the man opened a checking account at the National Bank of Commerce with a $600 check that turned out to be a forgery.

More than $1,000 in checks have been returned to the bank since the account was opened.

Jewelry Stolen

Cologne, Germany (AP) — Burglars bored through a wall and stole jewelry worth $136,600 from a downtown department store, police said.

Fight Over Rice Fatal To Seven

Port Moresby, New Guinea (UPI) — Disputed possession of two bowls of rice prompted a night-long battle between members of rival tribes working on a plantation near here, police reported Thursday.

Seven men were killed and five others injured in the fighting, which was done with axes, knives and spears, police said.

Mao Now Compass

Tokyo (AP) — The New China News Agency quoted a Chinese Communist woman aerial navigator as saying the first task of a navigation teacher is "to instill Mao Tse-tung's thought in the minds of the students as their infallible compass."

Cost Of Replacing Bridge $13,000

Lancaster County Engineer Walter Hoppe estimated Thursday that it would cost $13,000 to replace the bridge over Stevens Creek which collapsed Wednesday as the second of two earth moving machines crossed it.

Hoppe said that a local distributor told him the machines weigh slightly more than 39 tons. The bridge capacity is five tons.

He said that the county can recover damages of the value of the bridge estimated to be about $10,000.

Park Board Urges Creating New Planning Post

The City Park and Recreation Advisory Board Thursday recommended the City Council approve an ordinance creating the position of park planning coordinator in the Park and Recreation Dept.

City Forestor Emilio Fontana would be named to the position.

Walter Mitchell, city personnel director, said the realignment is a "restructuring of the top level of the park department; a reassignment and delegation of top positions."

The realignment will divide the park department into planning and engineering, Wilderness Park and maintainance divisions.

Engineers Sought

Mitchell said the city has been searching for a landscape engineer and a registered civil engineer to complete the park department staff. Fontana has been serving in those capacities since September.

Park Supt. Don Smith said Fontana has been doing a good job in the three positions and the city is in effect saving money by creating the new position.

Mitchell said the Lincoln park system is in a transition period from a smaller to larger type of operation.

"We are currently trying to fit the system around the personnel, rather than the personnel into the system," Mitchell said.

In the long run this can be a bad policy, but it is necessary in the current situation, he said.

Pool Planned

In budgetary work, the board added a portable swimming pool to its priority plans for Peter Pan Park. The amount which the pool would cost is indefinite, but $15,000 to $20,000 was thought to be the range.

Smith reported that City Recreation Center III in northeast Lincoln is "basically complete" and that conditions for finishing the outside of the building depend on warmer weather. Formal opening and dedication of the building will be finalized later.

William O. Dobler was elected chairman of the board replacing Max Roper, who has served as chairman since 1958. Connie Whitaker was elected vice chairman.

Jail Advisory Committee Supports College Credit Pay For Policemen

By KEN NEUNDORF
Star Staff Writer

The Citizens Jail Advisory Committee, a private volunteer group that last week brought out a report on corrections in Lancaster County, sent a letter to the City Council Thursday supporting incentive pay increases for policemen who earn college credits.

Such a proposal was approved by the City Personnel Board in December and sent to the council where it still awaits action.

In the letter, the committee noted the endorsement of the personnel board and the Region II Crime Commission for the pay plan and said the committee "would like to support one argument which may not have been emphasized."

Judicial Decision

"The policeman makes a judicial decision when he weighs the arguments whether to arrest or not to arrest," the group noted.

"This out-of-court justice, which is both normal and desirable, continues through the whole pre-detention process until the offender finally comes before the court."

"Because this preliminary part of the judicial system necessarily lacks the supervision and public exposure of the justice meted out in the court later, it needs to be dignified," the letter continued.

The best method of accomplishing this, the committee stated, is to urge the policeman "to avail himself of all the education he can command."

For Each 30 Hours

Under the proposed pay plan, officers would receive a pay hike of 5% for each 30 hours of college credits up to 90 hours.

Once an officer attained a bachelor's degree, he would get a 20% increase. For a master's degree, a 10% pay jump would go into effect.

Also included in the proposal was credit for military service. For each year of service up to four years the officer would be granted an equivalent of five college hours.

LAP Days Reset For April 9-12

Lincoln Action Program Days, originally scheduled for April 2-5, have been postponed until April 9-12 at the Brandeis auditorium.

An open house for all of the antipoverty programs will be held April 9 at the Lincoln Action Program offices. Delegate agencies will show the public how programs operate.

A booth displaying the programs operated by LAP and its delegate agencies will be manned at Brandeis April 9-12.

Town Hall Meet For Capital City Is Rescheduled

Gov. Norbert T. Tiemann announced Thursday the "town hall" meeting for Lincoln has been rescheduled for April 6 at 7:30 p.m. in the Lincoln Hotel ballroom.

The meeting is one of a series being held across the state in which Tiemann and department heads discuss problems of local concern with the area's citizens.

True Baby Teeth

Charleston, W. Va. (UPI) — Laura Leigh Hall, a one-day old 7-pound, 2½-ounce twin girl, had two incisor teeth extracted. Laura's twin sister, Robin, also had two incisors at birth but doctors said they are not ready to be removed.

DAMKROGER FINDS TIME FOR ROCKETS

... Northeast Nips Boys Town On Last-Second Field Goal

By VIRGIL PARKER
Prep Sports Writer

Omaha — They'll have trouble coming up with a more exciting game than the Lincoln Northeast-Boys Town clash which opened the 60th annual Class A high school basketball championships at Civic Auditorium here Thursday noon.

Northeast, after claiming two overtime victories to win its Capital City district, came from behind on Maury Damkroger's jump shot with just five seconds remaining to edge Boys Town, 57-56.

Scottsbluff eased out in front of Omaha Benson at the start of the daytime sessions second contest and moved steadily to a 60-53 triumph.

The outcome of the two afternoon games set up a teacher-pupil semifinal Friday night. Scottsbluff coach Jan Wall was an all-state performer for veteran Northeast coach Ed Johnson during his high school playing days.

Though Northeast held a slim lead throughout most of its battle with Boys Town, the Capital City Rockets were overtaken in the last 11 seconds on a three-point play by Boys Town ace Tyrone Pryor, who paced all scorers with 33 points.

But Tom Novak, who had been the only member of Johnson's crew to find the range in the first half when he tallied 12 of his 16 points, hurried down the floor for a final shot. Double-teamed, he fed off to Damkroger who jumped in the winning points.

Damkroger, who had managed just seven first half points, roared back with 14 counters in the final two quarters to lead the Northeast effort.

The Rockets nursed a one-point 23-22 lead after the first half, but Boys Town got ahead by four points on one occasion in the third quarter before baskets by John Strain and Novak evened the count.

Then Damkroger went to work to give the Rockets a margin until the closing surge by Pryor appeared to spell doom for Northeast. But the all-state football fullback was saving his most important bucket for the end to squeeze out the victory.

The Scottsbluff-Omaha Benson game was a welcome relief after the heart-pounding lid-lifter.

The Bearcats jumped out to a quick 12-4 advantage and Benson never led, although the losing Bunnies closed the gap to just three points at 53-50 with a minute and a half left.

The second game featured the much heralded battle between Scottsbluff's 6-9 Dave Nuss and Benson's 6-8 Larry Seger.

Though Seger scored the most points, 25-16, Nuss tipped in a missed free throw by teammate Rick Brown with a minute to play to safely keep Scottsbluff in the lead and set up tonight's teacher-pupil meeting between Johnson and Wall.

Laurel, Fairbury Class B Winners

By TOM HENDERSON
Star Sports Writer

Laurel used speed and Fairbury a stingy defense, but both got the same results in the State Class B basketball tourney Thursday afternoon at the University of Nebraska Coliseum.

Laurel's quickness afoot resulted in 35 free throw chances and enabled the Bears to advance to tonight's semifinals with a 74-63 victory over slower Lincoln Pius X.

Fairbury's stingy defense, coupled with a Siegel-powered fourth quarter, brought the Jeffs into the semifinals with a 76-66 upset win over Schuyler.

Pius, which managed only a 2-15 record during the regular season, but won three straight district games to earn its berth in the state meet, played evenly with Laurel throughout the first half, managing a 35-33 halftime edge.

But Laurel, which came into the tourney with a 23-1 mark, got the jump in the second half, using its running game to outscore the Lincolnites, 8-2, in the first two and a half minutes of the third quarter to take command.

"That third quarter killed us," Pius coach Don Kelley says. "We got to running with them just a little bit and we didn't have enough speed to be running with them."

Kelley says, "when you're up against someone a lot quicker than you, fouls are always going to be a problem. When they're there, you're always only halfway there," he says.

Pius actually outscored Laurel from the field, but the Bears converted on 24 of their 35 free throw chances in the contest and two Thunderbolt starters, Dan McCabe and Larry Jablonski played much of the second half with four fouls.

The 'Bolts rallied to within three points, 66-63, with just under three minutes left in the game, and had an opportunity to narrow it to one, but a missed shot by Bill Jarrett and an easy layup by Laurel's George Schroeder made it a five-point deficit with only two minutes left and Pius' final challenge was broken.

"When we were down by three and Jarrett missed that shot, it was over," Kelley says. "That was the shot that had to go in. And we gave them a kinda easy one inside there too that put them back out front by five," he continues.

'We played good basketball though," Kelley says. "Laurel has a fine team. It's no disgrace to be beaten by them. We had them going for awhile. They played our game a little bit."

Fairbury, with it's man-to-man defense holding Schuyler ace Gc ie Harmon to only two field goals in the first half and blocking numerous shots, broke away from the tourney-tested Warriors in the fourth quarter with offensive spurt by Tom and Bob Siegel to move into tonight's semifinal game against Laurel at 7:00.

The Siegels spearheaded the fourth-quarter drive which pulled the Jeffs away from a precarious 56-53 lead to a 12-point budget at one point.

The pair scored 16 of Fairbury's 20 points during the final eight minutes to insure the win.

Tom Siegel and 6-5 Tom Gunlicks, who had 15 points in the first half, led a balanced Jeffs scoring attack with 19 points each, while Bob Siegel, only a freshman, contributed 17 and Gene Parks had 10.

Prep Picker Picks Only 50%

A .500 batting average would be fine for a baseball player, but it's a lousy start when picking winners in the 60th annual state high school basketball tournament.

But two winners in each of the four classes is the best I can claim as the high school hoop sport once again proved that the only thing predictable about it is its unpredictability.

In an attempt to recoup during the semifinal round, here's the choices:

Class A

Lincoln Northeast over Scottsbluff — It's pupil against teacher, and we don't think Ed Johnson taught Jan Wall everything he knew when Wall played for him at Northeast.

Omaha Tech over Hastings — The Tigers, who only won three regular season games, can't pull another upset. Tech is too quick and blessed with a stable full of deadeye shooters.

Class B

Fairbury over Laurel—Schuyler had to be a tougher foe for the Jeffs than Laurel will be.

Cozad over Valentine — Cozad, state football champs, want to add the basketball crown. Unbeaten string stays alive for at least another day.

Class C

Elkhorn over Henderson — The Antlers were runnersup a year, ago, don't want to be the bridesmaid again.

Pawnee City over Sutherland — The state's other unbeaten club goes after victory No. 25.

Class D

Shickley over Melbeta — Shickley barely got a warmup test in its opener. May be a little more pressed in this one. But this veteran five gain the finals with this one.

Mead over Overton — The toss-up game of the semi-final group. We'll take Mead in a squeaker.

MEN'S BASKETBALL

Thursday's Results

Dennis Paper Co. 40, Harms Lumber 37; Withouts 32, Stan's Tavern 25; Stevenson School Supply 37, Waverly Raiders 22; American Stores 29, ISCO 16.

Park & Recreation 40, Bankers Life of Nebraska 36; Prosecutors 35, Weaver's Potato Chips 24; Chubbyville 85, Bryan Hospital 56.

—VALENTINE WINS—

Cozad Stays Undefeated

By STEVE GILLISPIE
Star Sports Writer

Undefeated Cozad and Valentine will clash at 6:45 tonight in the semifinals of Class B state high school basketball tourney.

Cozad won, 87-66, with ease over Omaha Paul VI and Valentine had to rally to nip Sidney, 49-46, in opening round action.

The Haymakers used a devastating fast break to oust the Hawks from the meet. Leading at every quarter break, 27-13, 42-32 and 66-50, Cozad came within three points of the state record for most points scored in a single game for Class B.

The mark was set by Blair in 1962 with 90 counters.

However, with 4:07 left in the contest, coach Bill Ramsay swept the bench to give every Haymaker who suited up a chance to see action.

The outcome of the contest was decided in the initial period when Cozad raced ahead 14 points on the fast break. With Jack Lawless grabbing most of the rebounds and Scott Maline scoring the layups, the Haymakers went ahead to stay.

Both teams played even ball in the second frame, but the Hawks were already too far behind to catch the state's number one rated team.

After stretching the advantage to 16 points in the third stanza, Cozad upped the score, 77-54, in the fourth period before the starters retired to the bench.

The Haymakers used a well balanced scoring attack with Lawless and Pat Sitorius each potting 19 counters each and Mike Sitorius added 18. Kevin Riley was the only consistent Hawk and ended up with 18 points.

Valentine, down 36-22, in the early part of the third period, made a comeback to upend underdog Sidney, 49-46.

The Red Raiders had pulled into an early lead and it looked like an upset was in the making before the Badgers were able to regain their poise. Both teams played ragged ball most of the contest, displaying "tournament ditters."

The deciding factor in the game turned out to be a fullcourt zone press administrated by the winners. Sidney began to make costly turnovers in the third stanza and Valentine was able to convert them into scores.

Larry Shaw capped the Badger rally by sinking a free throw with 3:10 left in the tilt to tie the score, 43-43. Then a bucket by Bob Perrett put the Red Raiders on the down side, 45-43.

From that point on Sidney began to play reckless trying to get possession of the ball and Valentine kept calm in pulling out the win.

Blaine Harris put 17 points through the hoop to lead the Badgers and Chuck Wait was high for Sidney with 16 tallies.

Cozad and Valentine have met once during the regular campaign with the Haymakers the victors, 68-66. The Badgers will have to play much better ball than demonstrated Thursday night or the game will be a runaway for Cozad.

Marches, Demonstrations On Tap

Lincoln residents should be warned to expect some demonstrations and marches in the Capital City this weekend.

But they'll differ a bit from those annually given superfluous coverage by newspapers, radio and TV. The kids involved in these demonstrations will know a little bit about why they're demonstrating.

They won't be concerned with trying to tell a team of five-star generals how a war should be run. To most of these youngsters, the only discrimination they're concerned with is when Mom says the senior in the house can stay out until 12:30 while the sophomore has to be in at midnight.

If any of the youngsters taking part in this weekend's marches and demonstrations look like they need haircuts, you can bet the reason is that they haven't been able to get to town because of snow drifts or because the local barber has been sick for a month.

And you can also bet that everyone of them takes a bath at least every Saturday night, a practice that seems to have been forgotten somewhere along the line by some of today's floppy-haired, protesting something or other students.

The demonstrations will come immediately following each game in this weekend's State High School Basketball Tournament. The demonstrations will be marked by lots of crying, tears of joy for winners, tears of sorrow for losers.

The marching will come when the student body and their elders head en masse for a downtown eatery.

Protests On Tap, Too

There will be some protesting this weekend, also.

But it won't be caused by any war fought with guns or with anything to do with race.

The protests may have something to do with color when fans of one team claim a certain official just doesn't like their school and blows the whistle against anyone wearing their color shirt.

All protests will be aimed at one or two people, who will be readily identifiable by the black and white striped shirts they always wear.

Oh, there may be some other protests, but these will be kept more or less within the community as one fan complains the coach played someone else's son to much and didn't use his boy enough.

And there may be another protest or two about getting paired with a roommate who snores as students following their team try to save expenses by bunking four and five in a room meant for two.

But all demonstrations, marches and protests are guaranteed to be peaceful.

It's That Time Again

It's that time of year again and perhaps sports over-emphasis reaches its peak, but it lasts for only three days and comes but once a year.

We'd certainly be inclined to argue that too much newspaper space, radio and TV time is given to what's happening this weekend if it weren't for the fact that newspapers, radio and TV give nearly as much space to some anti-war demonstration that can't even draw enough people to have a basketball game.

At least, the kids doing things this weekend have the attention of thousands of people on the scene. Their actions have the whole-hearted backing of their elders—if they win.

Top-Seeded Pawnee City, Fourth-Seeded Sutherland Win Class C Tilts

By RANDY EICKHOFF
Star Sports Writer

Sutherland protected its No. 4-seeded position by downing Hastings St. Cecilia 64-52 while the No. 1-seeded team, Pawnee City, romped to an easy 71-55 win over Bloomfield in the Thursday evening round of the Class C State Basketball Tournament.

Pawnee City held off a third quarter rally by Bloomfield when the Bees' Larry Larson and Randy Stein found the range and started pumping in long shots against the impregnable Indian defense.

With 5:37 remaining in the second stanza, Larson connected on two straight 22-foot jump shots to start the Bees along the comeback trail after trailing 21-8 earlier in the period.

The zone press initiated by the Bees held the Indians scoreless for three minutes while Bloomfield cagers narrowed the gap to 23-16 with 3:41 left in the second quarter before Sam McIntyre scored on a driving lay-up to start the Indian offense clicking once again.

From then on, the Indians slowly stretched their lead to 31-21 at the end of the second stanza and well into the third on the corner shots of Jud Martin who brought the score to 38-24 with 5:53 remaining in the third stanza.

The Bees had dropped once again to a 15-point deficit, 51-36, by the end of the third period.

The fourth quarter was a repeat of the third as the Indians continued to lengthen their lead at the charity line, where Bloomfield intentional fouls gave them gift shots, and from the field where Martin continued to connect on his corner shots.

The Sutherland Sailors had a harder time subduing the Hastings St. Cecilia cagers after the Blue Hawks caught up to the Sailors late in the second stanza when a Dennis Pavelka jump shot and resulting free throw sent the Blue Hawks into the lead for the first time, 26-25, with 2:24 remaining in the half.

The Sailors fought back and took a slim 31-28 lead into the dressing room after Paul Paulman connected on a driving layup with 0:15 remaining in the period.

With 4:15 remaining in the third quarter, the Blue Hawks started striking back from a 41-33 deficit to knot the score 44-44 at the end of the stanza, but Paulman connected on a tip-in to shove the Sailors into the lead they never relinquished for the rest of the night.

With 2:35 remaining in the game, the Blue Hawks started to climb back into contention when they brought the score to 55-48 but then ran into a tight Sutherland defense and remained scoreless for the rest of the game while the Sailors added seven more points to bring the final tally to 62-48.

Hastings St. Cecilia was hurt in the last quarter of play when Max DeWitt, a leading Blue Hawk scorer and defender, fouled out of the game with 3:08 remaining and was followed moments later by teammate Bill Ashburn. From that time on, it was the Sailor's game.

Tonight at 8:45 p.m., Pawnee City will meet Sutherland in the second semifinal playoff at Pershing Auditorium.

Shickley, Melbeta Capture Victories In Class D Meet

. . . PAXTON, ATKINSON ST. JOSEPH OUSTED

By DAVE WALLNER
Star Sports Writer

The Shickley Longhorns, behind the shooting of Lonnie Benson and John Dowdy, walloped Paxton, 90-58, in State Class D basketball tournament action, while Melbeta, the smallest school to make the trip to Lincoln, knocked off Atkinson St. Joseph, 63-56.

Shickley never trailed at Johnson Gym as Benson and his mates blistered the net at a 60 per cent clip the first quarter.

The 6-0 Benson rifled in 12 points in the first stanza, while Paxton was pressured into a disasterous series of turnovers. Shickley's 1-2-1-1 zone press played havoc with any pre-game offensive strategy the losing Tigers might have had.

Longhorn coach Richard Ideus said that a pressing defense has been one of his team's key weapons all season.

"We use both a man-to-man and zone presses," Ideus commented. "As far as I know right now, we won't be planning on using anything different."

After Benson's first quarter surge, which pushed the winners to a 26-15 lead, the Longhorns turned a number of steals off their press into quick buckets. The score stood at 49-19 with just 2:27 left in the second quarter.

Paxton could get no closer than 19 in the second half at 53-36, although the Tigers played Shickley to a standstill the third quarter.

Ideus admitted that his team did suffer a let-down in the third stanza, but explained that his club seemed to do that same thing throughout most of the season.

"We've done it in the past," Ideus said. "We just hope that that one bad quarter doesn't come in a close game."

Benson finished the game with 23, while Dowdy trailed close behind with 22. The two had plenty of help as all five Shickley starters placed in double figures.

Paxton's Scott Anderson tallied 17 for the losing Tigers, while Arnold Freeman chipped in with 12.

Shickley's total of 90 came within two of breaking a tournament record, set in 1966 by Sprague-Martell.

Melbeta needed a cluster of late free throws to sew up a see-saw battle with Atkinson St. Joseph.

The Eagles pumped in 11 charity shots in the last four minutes of the contest to thwart St. Joe's comeback efforts.

The losers trailed by just two with 2:05 left when floor leader Jim Dvorak slipped through the Melbeta zone for a layup. Steve Batt countered with two free tosses for Melbeta, but St. Joe had no intention of throwing in the towel. The Bluejays' John Skrdla popped in a field goal from the key to bring Atkinson back to within two. But Glen Gross, 5-7 Melbeta guard, notched four charity attempts in the last two minutes to seal the verdict.

The Eagles led through the first quarter, but Atkinson pulled ahead in the second stanza with 4:35 left. The lead changed hands nine times in the last half as neither team could manage leads of more than three points until Melbeta's final surge.

The Cochran boys, Jack and Bob, tallied 17 apiece for the victors. Gross finished with nine.

Dvorak and Mike Schmaderer both notched 16 for the losers. The two keyed a deadly Atkinson fast-break throughout the game. Skrdla with 12 and Mack Schneider with 10 also hit in double figures.

Eleventh-Hour Rallies Save Overton, Mead In Class D

. . . HILDRETH, DORCHESTER OUSTED

By JIM JOHNSTON
Star Sports Writer

Two eleventh-hour rallies saved Overton's Eagles and the Mead Raiders as they advanced to semi-final action in the Class D state basketball classic.

Overton used seven straight free throws in the final two minutes to clip Hildreth, 65-55, while top-seeded Mead overcame ball handling difficulties to fight off an inspired Dorchester quintet, 54-47, in the nightcap.

Class D semi-final action gets underway at noon today with Shickley meeting Melbeta followed by the Overton-Mead clash at 1:45. Both games are set for the NU Coliseum.

A fast-breaking Hildreth offense aided by a non-yielding defense enabled the Greyhounds to take an early command over Overton. Hildreth held an 18-9 advantage before advancing to a 21-16 first quarter lead.

The Overton offense finally began to click behind the outside shooting of Glenn McCarter and the Eagles claimed their first lead in the contest, 32-31, with 1:30 remaining in the first half. Randy Witmer was responsible for the Overton lead as he connected on both ends of a one-and-one situation.

After a see-saw early third quarter, Overton broke things wide open on eight straight points to hold a 51-44 cushion late in the third period. They enjoyed a 51-45 advantage at the quarter break.

But Hildreth had a final flare left, and rattled off three consecutive field goals and a pair of free throws without an answer from Overton, to hold a 53-51 lead.

However, that was all Hildreth had left in them as the Eagles scored 14 points in the final 5:30 while the Greyhounds could muster only one fielder. The Overton scoring spree was highlighted by seven straight free throws which gave them a 63-55 cushion.

In the final first-round Class D contest, Mead's Raiders used two sustained drives to diminish the upset hopes of Dorchester. Mead now boasts a 23-1 season mark.

The first quarter was all Dorchester, however, as the Longhorns claimed an 8-2 advantage before sailing to a 14-6 lead at the end of the initial stanza

The Longhorns, who began to slow down the game, moved to a 21-12 lead with 4:51 to go in the half But Mead decided it was time to liven up the pace as they quickly claimed the lead, 22-21, with only 28 seconds remaining in the half.

Hildreth regained a 23-22 halftime advantage.

It was a Hildreth press that troubled the Mead offense during the early goings, and the same situation came back to haunt the Raiders at the start of the third period.

Dorchester's Doug Nelsen, Doug Stutaman and Bill Boller pocketed press-aided field goals during the first minute of the half to give the Longhorns a quick 29-22 lead.

But once again, Mead proved their shooting abilities and took a 32-29 advantage on ten straight points.

The game remained close in the third quarter and was deadlocked, 24-34, going into the final period.

Mead's Corky Charles, who tallied 17 points in the first-round contest, went to work under the boards and gave the Raiders an eight point lead with 2:11 showing on the clock.

The closest the Longhorns could get was six points as Mead began to slow things down.

A full-house was on hand for the final two first round games at Johnson Gym.

Friday's Schedule

Class A

At Omaha Civic Auditorium

7 p.m.—Lincoln Northeast (16-3) vs. Scottsbluff (17-3)
8:45—Hastings (6-13) vs. Omaha Tech (17-4)

Class B

At NU Coliseum

7 p.m.—Laurel (24-1) vs. Fairbury (20-2)
8:45—Valentine (20-3) vs. Cozad (20-0)

Class C

At Pershing Auditorium

7 p.m.—Elkhorn (23-3) vs. Henderson (19-4)
8:45—Sutherland (23-2) vs. Pawnee City (24-0)

Class D

At NU Coliseum

Noon—Shickley (22-2) vs. Melbeta (21-3)
1:45—Overton (19-3) Mead (23-1)

Park Board To Ask Golf Dates' Change

. . . INVOLVES LEAGUE PLAY

The City Park Board Thursday passed a recommendation to ask the Mayor to reconsider the June 1 opening date for league play on city golf courses.

Included in the recommendation is a request to consider a per person fee for Golf League participants in regard to nine hole play and a possible fee for use by high school students.

Ed Cantwell appeared before the Board on behalf of a private league and said the late starting date would not allow a league to complete play with playoffs before the end of the summer.

He said leagues usually golf from mid-April to the middle of September. The league golfs one night a week.

Don Smith, City Parks Superintendent, said the later date has been set because of course congestion due to high school student use until June 1.

Although the leagues, of which there are about 30 in the city, golf on only one nine of an 18 hole course, Smith said he has received complaints from "about 50 or 60 private golfers."

The leagues are ordinarily held around 5:30 or 6 p.m. and are confined to the earlier days in the week, Smith said.

All league golfers pay standard green fee rates for using the Pioneer or Holmes courses for nine hole sessions.

Smith said he has received complaints from other golf leagues about the June 1 opening date.

Cantwell said "We need about 18 weeks of golfing to complete a league schedule and weather difficulties makes this into a tight summer schedule.

He pointed out that his league itself had golfed 600 nine hole rounds at Pioneer last summer and this is certainly added income which the city would miss if the league could not operate.

Art Modell Resigns As President Of NFL

New York (AP) — Arthur B. Modell, owner of the Cleveland Browns, resigned Thursday as president of the National Football League, the NFL announced.

Modell said he resigned because the Browns, beginning with the 1970 season, will compete in the American Conference of 26-team National Football League. The American Conference is comprised of the 10 former American Football League clubs and four teams from the old NFL setup.

Updating Slowed

Chicago (UPI) — Chicago & Eastern Illinois Railroad said it is slowing its modernization program for lack of funds. The C & EI is 53% owned by the Missouri Pacific.

DiMaggio Turns Down Offer From Baseball's Kuhn

Mesa, Ariz. (AP) — Joe DiMaggio said Thursday he had turned down a job with baseball commissioner Bowie Kuhn's office, but had left the door open for such a position in the future.

"I saw the commissioner in New York recently and we had a long talk," DiMaggio said. "I told him I couldn't take the job now, but that if it were open when I was able to take it, I would want to talk to him about it again."

DiMaggio, a coach for the Oakland Athletics in their current spring training workouts here, said he was asked by Kunn to be a West Coast representative for the commissioner's office.

DEEP PURPLE

Milford rooter Lonnie Miller provided a colorful accent as he sported his team's purple colors to the hilt . . . even with purple hair as Milford cheerleaders Susan Eicher (left) and Rhonda Stauffer (right) check his dye job. Miller said he spent over six hours in a Lincoln beauty shop to achieve the effect. "I told the players that I would come with purple hair and dress in high heels if they made it to the state tournament," he grinned, "but I denied the dress and heels bit when they won the district." Miller's hair didn't help Milford in the scoring column, however, as they lost to Elkhorn 57-46. **(Star Photo).**

Jacobs Takes Pensacola Golf Lead

Pensacola Fla. (AP) — Tommy Jacobs, a non-winner since 1964, fired a 66 Thursday, then sat back and watched it stand up as the first round lead in the $150,000 Monsanto Open golf tournament.

Jacobs, a soft spoken veteran of 15 years on the pro tour, was five under par and held a one stroke lead over sophomore Grier Jones, one of the most promising young players on the tour who had a sparkling 67.

There was a large group at 68, including veteran Art Wall and PGA champ Ray Floyd.

Some of the other outstanding names in the game had their troubles with the tough, little 6,625 yard, par 71 Pensacola Country Club Course, which played much longer than the yardage would indicate.

Arnold Palmer had a 74, South African Gary Player, making his first start in this country this year, had a 71, as did defending champion Jim Colbert.

—MILE RELAY, 60 DASH—

Huskers To Enter Two NCAA Events

The emphasis is on quality and not quantity for the University of Nebraska in this weekend's NCAA indoor track championships in Detroit.

Cornhusker track coach Frank Sevigne is entering his runners in just two events — the 60-yard dash and the mile relay.

Don Quarrie, the Jamaica freshman who has authored several :06.1 clockings will bid in the 60.

Sevigne will send out the Big Eight championship quartet of Bob Pierce, Ron Lange, Leighton Priestley and Garth Case in the mile relay.

"We're hoping to win it," says Sevigne, who underscores the statement by confirming that Case, the two-time Big Eight 600 champ, will be held out of that event and concentrate on anchoring the relay team.

The sophomore swiftie was fourth in the NCAA 600 as a freshman last season.

"I don't know who our primary competition will come from, because some of the southern and western schools are already starting their outdoor seasons and won't compete in Detroit," says Sevigne.

"If Texas A&M shows up, they'd have to be regarded as the favorite. Villanova, Kansas, Oklahoma and Michigan State look tough, too," he adds.

Qualifying heats in both the 60 and mile relay are scheduled Friday at Cobo Hall with the finals scheduled Saturday.

NU Matmen Eye Escape Of Cellar

. . . MEETS OPENS TODAY

Nebraska wrestling coach Orval Borgialli isn't so bold as to think his team is ready to challenge the "Big Three" but he's convinced that the Cornhuskers are ready to vacate the cellar in this weekend's Big Eight wrestling championships at Kansas State.

"It's sort of like walking into a den of lions," says Borgialli of the presence of Iowa State, Oklahoma State and Oklahoma in the tourney.

They dominate the Big Eight each year and generally carry right on to dominate the NCAA finals as well. Last year, for instance, Oklahoma State won the Big Eight title and Iowa State captured the national crown.

"Our kids' spirits haven't been dented a bit," says Borgialli. "The kids have confidence that we'll do much better this year."

The confidence stems from a late-season surge in which the Cornhuskers lost just once in their last eight matches to finish with a 7-6-2 dual record, first winning season for Borgialli.

A 15-15 draw with Missouri Wednesday night emphasizes the progress made and the reason for optimism about improving the Big Eight finish. Last year the Tigers finished fourth in the conference meet, three notches above Nebraska.

It came on the heels of an upset win over Southern Illinois, a team which had been ranked as high as sixth nationally during the course of the season.

"Teamwise, the Southern Illinois meet is the finest performance we've ever had," says Borgialli.

The Cornhuskers have only one senior, 167-pounder Jerry Munson, in their lineup.

Juniors Doug Erickson (134), Tom Meier (150) and Jim Haug (177) are battle-tested but it has been the freshman and sophomore contingent which has sparked the Cornhusker climb.

With four sophomores — Joe Orta (118), Rick Pinkerman (126), Joe George (158) and Keith Burchett (Hwt.) — and two freshmen — Tom Lotko (142) and Bill Knippel (190) — Nebraska has one of the youngest squads in the Big Eight.

Orta, fourth at 115 pounds a year ago, lost his opening match after missing the first semester but hasn't been defeated since and looms as a solid contender in the Big Eight. His work is cut out for him, however, in that defending champion Ray Stapp of Oklahoma State and runnerup Steve Lampe of Iowa State are both returning.

Borgialli anticipates that George and Lotko will also gain seeded positions in the tourney on tre basis of season performance.

Preliminary round action is set for 7 p.m. Friday with semifinals slated at 1 p.m. and finals at 7 p.m. Saturday.

118—Orta, NU, dec. Labella, M, 12-0.
126—Barrett, M, dec. Pinkerman, NU, 4-3.
134—Graham, M, dec. Erickson, NU, 7-1.
142—Lotko, NU, dec. Woodson, M, 3-1.
150—Zemmel, M, dec. Meier, NU, 3-2.
158—George, NU, dec. Bourg, M, 9-2.
167—Munson, NU, dec. Winer, M, 5-4.
177—Haug, NU, dec. Byrd, M, 9-0.
190—Paulson, M, dec. Knippel, NU, 7-3.
Hvy—Knudsen, M, dec. Burchett, NU, 9-1.

Perranoski Signs Twins' Contract

Orlando, Fla. (AP) — Ace relief pitcher Ron Perranoski signed his 1970 baseball contract with the Minnesota Twins Thursday.

The stylish left-hander had a 9-10 record with 31 saves and a 2.10 earned run average for the American League team last season.

A Twins spokesman said Perranoski received a nice raise, which probably put him in the upper $40,000 bracket.

Upsets Hit Seeded Class C Teams Milford, Norfolk Catholic In 1st Round

By RANDY EICKHOFF
Star Staff Writer

Top-seeded Milford and Norfolk Catholic were knocked off their respective pedestals Thursday afternoon in the opening round of the Class C State Basketball Tournament.

Milford, seeded No. 2, was beaten by Elkhorn, 57-46, while Henderson downed No. 3-seeded Norfolk Catholic 61-47.

Milford, playing without 6-8 center Gary Eberspacher, felt the loss of their star player who had been averaging nine points per game and ten rebounds.

"And he blocked 114 shots from the pivot," Milford coach Dennis A. Bargen said.

"The boy was almost in tears when he caught me the other night and told me he couldn't play. The doctor had given him a poor bill of health and took him off the squad.

"I don't know exactly what's wrong with him . . . just that he has some kind of infection that's affecting his heart."

Bargen, in his second year as coach of the Eagles, said a further loss of guard Tom Brunz hurt him on outside shooting.

"Brunz averaged 14 points per game in the district last year and when he moved to Millard . . . well, we felt the difference. He would have been my best outside shooter this year."

Elkhorn's coach Gene Kruger, said he was sorry about Milford's loss of "the big guy (Eberspacher)."

"Any boy that big could make a tremendous difference in the score," he commented. "I'm sorry he didn't get to play."

Kruger contributes his success to "a total team effort."

"They're one of the finer teams we've played," he grinned, "but we had real good shooting from the outside and a great team effort that made the difference."

The Elkhorn Antlers jumped to a 2-0 lead following the opening tipoff but Milford tied it up 2-2 seconds later. That was as close as Milford got to Elkhorn for the duration of the game.

The Antlers, with the ballhandling and shooting of Mike Trader, who connected for 14 points, and Pat Gottsch, with 15 points, steadily lengthened the scoring gap as the Eagles failed to connect on shot after shot.

The third quarter was marked even with both teams connecting for 12 points, but the Antlers' defense stiffened in the fourth stanza and the Eagles were held to six points while Elkhorn managed eight.

The fourth period of play saw careful ballhandling and a tight zone press by the Antlers who stopped Milford shooting until the 3:43 mark before Stutzman connected on a jumpshot that opened the game up.

The Henderson Huskies utilized a full-court press from the opening buzzer to catch Norfolk Catholic by surprise and run up an early lead of 21-18 at the end of the first quarter.

Huskie Homer Frieson connected on several baskets to keep Henderson in the game until Allen Regier, the Huskie pivot man, started shooting to rocket Henderson to a 30-20 advantage with 3:34 remaining in the first half.

Homer Frieson then teamed with brother Ross to dominate the rest of the half and widen the margin to 38-26, a 12-point advantage.

The Knights couldn't close the gap in the second half, and a zone and man-to-man defense failed to stop the smaller Huskies from outscoring the Knights, 23-21, and grabbing 14 more rebounds for a 53% better average.

Elkhorn faces Henderson tonight in the semifinal playoff at 7:00 p.m. at Lincoln's Pershing Auditorium.

Aggies Rebound Past KSU

. . . WILDCATS FALL, 70-66, IN NCAA REGIONAL

Lawrence, Kan. (AP) — Fifth-ranked New Mexico State blew a 17-point lead to Kansas State before Sam Lacey and Jimmy Collins picked the sagging Aggies off the ropes and lifted them to a 70-66 victory in the NCAA Midwest Regional basketball tournament Thursday night.

Cold-shooting Kansas State finally got its shots falling in the second half. The Wildcats, down, 31-14, with 3:49 in the first half, caught up with 6½ minutes left in the game, taking their only lead at 54-53.

Lacey canned a jump shot off the baseline to restore New Mexico's lead. Collins then hit a jumper and a free throw for a 58-55 margin and Kansas State never caught the Aggies again.

Lacey hit another shot and sank two free throws within a half-minute to make it 64-59. The Aggies never let that cushion get away.

The Aggies were far from sharp, however, and had Kansas State not suffered some horrible shooting woes in the early going, hitting only one of their first 15 shots — the outcome would have been doubtful.

Jerry Venable of Kansas State led all scorers with 28 points, while Collins notched 23 for New Mexico State. That gave Collins 1,663 points for an Aggie career record.

Villanova 98, Niagara 73

Columbia, S.C. (AP) — The rebounding and sharpshooting of Howard Porter proved too much for Niagara Thursday night and sent Villanova into the NCAA Eastern Regional finals on a 98-73 score.

Calvin Murphy, Niagara's diminutive All-American, was held to 18 points by the unranked but taller Villanova team that registered its third victory of the season against the 17th ranked Niagarans.

Jacksonville 104, Iowa 103

Columbus, Ohio (AP) — Fourth-ranked Jacksonville waited until the final seconds to score an NCAA Mideast basketball regional tournament win Thursday night.

Pembrook Burrows' rebound basket with two seconds to play gave Jacksonville a 104-103 triumph over Iowa.

Kentucky (26-1) will face Jacksonville (25-1) in the Mid east finals Saturday afternoon in Ohio State's St. John Arena.

Kentucky 109, Notre Dame 99

Columbus, Ohio (AP) — Top-ranked Kentucky, with All-America Dan Issel scoring 44 points, roared from behind in the second half to whip Notre Dame 109-99 Thursday night in the NCAA Mideast basketball regional semifinals.

Issel poured in 24 of his points in the second half, leading the Wildcats (26-1) from a 53-48 halftime deficit.

Austin Carr, Notre Dame's 6-foot 3 junior guard, scored 52 points to outduel Issel. Carr had scored an NCAA record 61 points last weekend against Ohio University.

Kentucky never led until Issel's basket put the Wildcats in front 54-53 with 18 minutes to play. Notre Dame had led by as many as seven points in the first half until the Wildcats exploded for a 61-point second half.

Drake 92, Houston 87

Lawrence, Kan. (AP) — Drake's aggressive Bulldogs stormed to an 18-point lead midway through the second half, then withstood a Houston rally for a 92-87 victory in the semifinals of the NCAA Midwest Regional basketball tournament Thursday night.

Drake, which won this regional a year ago and finished third in the NCAA after narrowly bowing to champion UCLA, had a 72-54 lead with nine minutes remaining. The Bulldogs still were in command 78-61 with 6:36 left.

Utah State 69, Santa Clara 68

Seattle (AP) — Ed Epps hit a jumper with 10 seconds left and Nate Williams had a superlative second half with a game-saving steal as Utah State edged Santa Clara, 69-68, in the first-round of the NCAA Western Regional Tournament Thursday night.

The Utah State Aggies were behind 68-67 when Bruce Bochte missed two free throws that could have iced the game for Santa Clara.

Then Epps hit his jumper for his eighth and ninth points, all done in the second half.

Dodgers Thump Houston

By The Associated Press

Rookie Billy Buckner and veteran Andy Kisco provided most of the offense for Los Angeles and the Dodgers thumped Houston 10-6 in exhibition baseball Thursday.

Buckner cracked four hits and drove in four runs while Kosco contributed a three-run homer to the 12-hit Los Angeles attack.

Elsewhere, the offenses had a tougher time.

The world champion New York Mets managed just two hits as Boston blanked them 2-0. Jim Lonborg, Ed Phillips and Jose Santiago shared the shutout and Billy Conigliaro tagged a home run for Boston.

Three Cincinnati pitchers, Jim McGlothlin, Tony Cloninger and Al Jackson, also split a two-hitter as the Reds shut out Kansas City 3-0. McGlothlin and Cloninger each worked four innings and Jackson finished up.

St. Louis got a five-hitter from Nelson Briles, Harry Parker and Chuck Taylor to blank Detroit 5-0.

In other games, Oakland walloped San Francisco 12-1, California trimmed Seattle 7-6, and Cleveland edged the Chicago Cubs 4-3 in 11 innings.

Games between Atlanta and Montreal, Baltimore and Washington and the Chicago White Sox and New York Yankees were rained out.

Utah Grid Coach Wanted Nebraska For 1970 Date

Omaha (AP) —Utah football Coach Bill Meek said Thursday his school tried to get on Nebraska's 1970 football schedule.

When the NCAA approved an 11th regular season game, for all schools, Utah approached Nebraska about starting a series of games, according to Meek, but Nebraska decided instead to add Wake Forest, for a Sept. 12 game.

"We feel we could give Nebraska a game of it," said the Utah coach. "I'd like to have a series with Nebraska because it's a prestige school."

Meek and Athletic Director Jack Curtis of the University of California at Santa Barbara were in Omaha to promote physical fitness.

Robisch Passing Up KU Baseball

Lawrence, Kan. (AP) — Dave Robisch, who has made all-Big Eight teams in both baseball and basketball, has decided to forego baseball this year.

Robisch, a pitcher, had a record of four wins and two losses with an earned run average of 2.57, last year as a sophomore.

As a basketball player, the 6-9 Springfield, Ill., native, led the league in scoring with an average of 26.6.

"After a long basketball season that left him mentally and physically fatigued, Dave felt he could not perform for us to the best of his ability and decided to pass up baseball this spring," coach Floyd Temple said Thursday.

—OMAHA TECH EDGES NORTH, 69-65—

Hastings Overcomes Fremont In Tourney's Biggest Upset

Omaha — Hastings pulled the opening day's biggest surprise by running past Fremont, 61-42, to open the evening session of the Class A high school basketball championship here Thursday night.

Metro League king Omaha Tech closed out the initial round by coming from behind in the second half to edge crosstown rival North, 69-65.

A pair of Tigers clawed each other in the Hastings-Fremont clash. It was the improved play of 6-6 junior center Paul Thomas, who tallied 22 points, that paced Hastings to its win.

Both quintets came to this cage classic from the Big Ten Conference. Though Fremont was the league champion and Hastings had won but three regular season games all year, Thomas led his mates to a six point halftime advantage and a nine-point bulge going into the final frame.

Fremont was unable to penetrate an effective Hastings zone defense. Though the losers long range bombing was on target enough in the first half to keep them in the game, when their sights went out of adjustment late in the contest, Hastings pulled away to its final 19-point margin, the largest of the game.

Much of the story was told at the free throw line. In its zone Hastings was charged with just five fouls for the night.

night while Fremont, pressing toward the end, was whistled down 20 times.

Though Tech had topped North in their only regular season meeting by five points, **North held the upper hand in the early going.**

Wayne Piper's 20 first-half points, spearheaded North to a six-point, 40-34,, halftime lead.

Tech came out to deadlock the count at 43-all midway through the third quarter. Then William Newby, who paced the winners with 19 points, put Tech ahead to stay.

Tech gained an eight-point bulge at 59-51 in the final frame. Though North closes the gap to just two at 61-59, their desperation tactics and in the closing moments sent Tech to the free throw line enough times for them to pull safely back out in front.

Tonight's semi-final Class A action will send Northeast and Scottsbluff against one another in the 7 p.m. opener, with Tech and Hastings to follow in a battle for the other final berth.

Sooners Hire New Coach

Norman, Okla. (AP) — Oklahoma football coach Chuck Fairbanks announced Thursday the hiring of an assistant coach and changes in responsibilities for four assistants already on his staff.

Jimmy Johnson, 26, was hired from Clemson to coach the Sooners' defensive line. Johnson joined Clemson only recently after being on the Iowa State staff in 1968 and 1969.

He is a former football captain at Arkansas, where he played on the Razorbacks' 1964 national championship team.

Fairbanks announced that Barry Switzer, OU offense coach the past three years, had been elevated to assistant head coach. He replaces Pat James, who resigned last Saturday to enter private business.

Switzer will continue to head the Oklahoma offense.

Larry Lacewell, defensive end coach, was promoted to defense coach, another position that belonged to James.

Warren Harper will coach the linebackers and assume more responsibility in the over-all planning of the Sooners' defense.

Jerry Pettibone, freshman backfield coach, will become defense coach for OU's frosh. And former Sooner quarterback Bob Warmack will handle Pettibone's old job.

Davidson's Maloy Inks Contract With Pipers

Pittsburgh (AP) — Mike Maloy of Davidson formally signed a three-year contract worth about $150,000 with the Pittsburgh Pipers of the American Basketball Association Thursday.

The 6-foot-7 second team All-American signed with the Pipers in the presence of ABA commissioner Jack Dolph.

Creighton Sets Ambitious Slate For Baseballers

Omaha (AP) — Creighton University announced Thursday what was described as its most ambitious baseball schedule.

Coach Larry Cochell, who played under Bobby Winkles at Arizona State University, has set up a 44-game schedule including such formidable opposition as Minnesota, Tulsa, Air Force Academy, Denver, Oklahoma City, Drake and Wichita State.

Minnesota was Big Ten champion last year and Tulsa a finalist in the College World Series, of which Creighton again will be the host school.

—CAIN BEST REBOUNDER—

Robisch Tops Big 8 Scoring

Kansas City, Mo. — Dominant from the very beginning were Kansas' Dave Robisch and Iowa State's Bill Cain as they easily won the Big Eight Conference scoring and rebounding titles for the conference-games portion of the year.

Robisch, who spent most of the season scoring at record levels, finished with a 26.6 average and 372 points. His point accumulation was but three off the record held by another Kansan, Walt Wesley, who scored 375 in 1965. On an average basis, Robisch was only two points a game under the league standard of 28.3 hung up by former all-American Wilt Chamberlain in 1958.

On his way to the title, the 6-9 Jayhawk junior unseated Colorado's talented junior Cliff Meely who was the defending scoring champion. In fact, Meely, though averaging 21.1 for the season, slipped to third, behind Oklahoma's Garfield Heard, who fired a late rush into second with a 21.5 average.

Now, Meely and Robisch are locking in a two-way battle, which begins anew next season, to see who might crack the league's career record for conference games which is held by Iowa State's Don Smith.

After two seasons, Meely has the edge with 643 points. Robisch has 640. Smith's record is 946. Both, though, have scored over 80 more points after their first two seasons than Smith had recorded after his first 28 games.

Not overtaken this year in his attempt to defend a title was Cain, who finished out his conference-games career by tying the league's rebounding record of 211 set in 1959 by Kansas' Bill Bridges. For the league season, Cain finished with a 15.1 average, compared with his winning 14.3 mark of last year.

McLain Hit With Breach Of Contract Suit

. . . ANOTHER IN LONG LIST OF MONEY PROBLEMS PLAGUING PITCHER

Kalamazoo, Mich. (AP)— A $50,000 damage suit accusing Denny McLain, suspended Detroit Tiger pitcher, of breach of contract in a ski resort promotion plan has been filed in Kalamazoo County.

The suit, among other things, accuses McLain of keeping "for his separate use" some of the revenues of the company and of not coming up with $20,000 in capital, which, the plaintiffs charge, he had promised to do to finance the plan.

The suit was filed Feb. 20 by four men who allege that they and McLain formed a company, Sports Card, Inc., to sell membership cards to ski resorts which would entitle skiers to certain privileges at the resort.

There was no comment from McLain who is in Florida.

This is the latest in a series of money woes besetting McLain who has lawsuits and judgments against him estimated at $50,000, including an Internal Revenue Service lien and an eviction suit.

The $90,000-a-year pitcher was suspended indefinitely from baseball last month by baseball commissioner Bowie Kuhn pending completion of an investigation of McLain's alleged gambling activities. Kuhn said Wednesday the inquiry is continuing.

The plaintiffs, identified as Nathan J. Rice, Thomas V. Schade, David G. Brandt and Loren L. McKinstry, all of Kalamazoo, claim that McLain signed an agreement last September to own half the company's stock as investment shareholder. In return, Sports Card Inc. was to spend $20,000 to advertise ski resorts and McLain was to make personal appearances at each resort, the suit says.

Phipps Hits Stanford

The best one-game passing effort in the Big Ten last season was turned in by Mike Phipps of Purdue. He completed 28 of 39 passes for 429 yards against Stanford.

Purrington Tops Yale

Quarterback Roly Purrington of Franklin, Va., passed for nine touchdowns with the Yale freshman football team last season.

Van Berg Horse Wins In Feature At Oaklawn Park

Hot Springs, Ark. (AP) — Roaring Thunder, owned by M. H. Van Berg of Columbus, Neb., was awarded first place Wednesday in the $6,500 feature race at Oaklawn Park in Hot Springs, Ark.

The victory came after stewards dropped Big King from first to second. Big King, owned by W. C. Partee of Magnolia, Ark., was disqualified for interferring with Roaring Thunder.

Roaring Thunder, a 3-2 favorite, paid $5.00, $2.60 and $2.40.

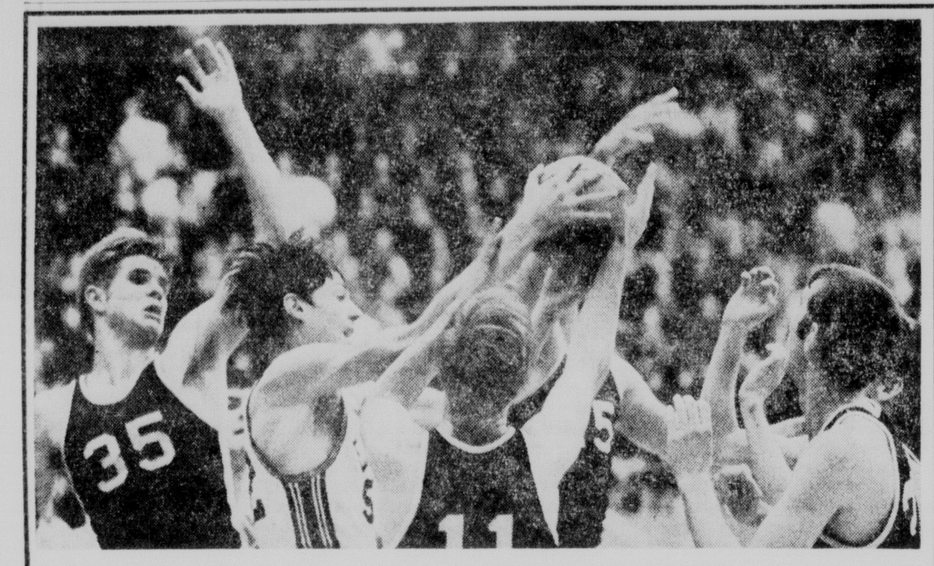
Greene Scores Australia Win

Melbourne, Australia (AP) — Americans Charlie Greene and Martin McGrady shared the spotlight with Australians Kerry O'Brien and Ralph Doubell in an international track meet Thursday night.

Greene won the 100 meter dash in 10.3 seconds and McGrady, fresh from a string of successes in indoor meets at home, captured the 400 meter run in 46.4 seconds.

O'Brien, a steeplechase specialist, upset countryman Ron Clarke, the world record-holder, in winning the 5,000 meter run in 13:37.2.



Welcome to the State Basketball Tournament!

Lincoln's Master Charge merchants extend a warm welcome to all the players, coaches, band members, cheerleaders, students, parents and fans visiting the Capitol City for the annual tournament. Late Lt. Snyder NU Memorial Gifts Total $470

Memorial gifts to the University of Nebraska Foundation in honor of Lt. William H. Snyder of Lincoln now total $470. He was killed in an air crash May 10, 1969, near Palmyra as a pilot of a Nebraska Air Guard plane.

According to Harry R. Haynie, foundation president, the funds will establish a student-loan program in Lieutenant Snyder's name and will be loaned to University students on the Lincoln campuses.

Lieutenant Snyder was a 1966 graduate of the university. His mother, Mrs. Helen Snyder, resides at 1133 North 44th.

Royal Visit Slated

Rabat, Morocco (AP) — King Hassan II, will pay an official visit to the United States beginning July 23, informed diplomatic sources reported.

Stock Market Slips Slightly

New York (AP) — The stock market meandered downward slightly Thursday in exceptionally slow trading.

The slippage was broadly based, with losers exceeding gainers on the Big Board by more than 2 to 1.

The Dow Jones average of 30 industrials closed off 1.65 at 776.47.

Drugs were among the heavier losers in Thursday's session. Merck was off 2 at 102; Pfizer, off 3⅜ at 105; Schering, off 1 at 57½, Abbott Labs, off ⅜ at 72½ and Searle, off 3¼ at 40¾.

The drug stocks had been the favorites of mutual funds a few months ago. Analysts said the bleaker outlook for sales of "the pill" was a prime contributor to the recent decline.

The second most-active issue on the Big Board was Lockheed, off ¾ at 13¾ on a volume of 129,800 shares. A 59,300-share block of the issue traded Thursday at 13⅜. A week ago the company reported a substantial loss for 1969.

Airlines, tobaccos, building materials, steels, aircrafts and electronics were generally lower.

The Associated Press 60-stock average closed off 1.7 at 274.6. Industrials were off 1.6, rails off 1.4 and utilities off .8.

The New York Stock Exchange closing index of some 1,200 common stocks declined 0.22 to 49.31.

Volume on the exchange declined to 9.1 million shares, the lowest level since Jan. 12, from 10 million shares Wednesday.

Of the 1,579 issues traded on the Big Board, 869 declined, and 413 advanced. New 1969-70 lows were touched by 31 issues while two stocks reached yearly highs.

The American Stock Exchange slipped .11. Of the 1,003 shares traded, 549 declined, and 257 advanced. Volume dropped to 2.6 million shares from 3.1 million shares Wednesday.

Amex prices include Sequoyah Industries, off ¼ at 5½. United Foods, up 1/8 at 4⅛; and Ecological Science, off ⅞ at 19¾.

EVERYBODY'S MONEY:

Current Slump In Economy Differs From Past Setbacks

By Merryle S. Rukeyser

MERRYLE RUKEYSER

Planned Cooling Off

The human race lives in different time zones. In continental United States, for example, we have Eastern, Central, Mountain and Pacific time. In a different sense, folks in the underdeveloped countries are in effect in different historical time zones, as they face problems similar to those we met more than half a century ago Moreover, advanced nations, those with perspective, project their imagination from the present time zone into their expectations for the future.

The current U.S. economic setback has points of difference from those of the past. The chief variation is that this is a managed cooling off definitely planned by the Washington fiscal (budgetary) and monetary managers. The goals are to reduce the boom frenzy, lessen inflation, and hopefully create circumstances conducive to sustainable prosperity.

But since human nature remains fairly constant through the decades, cycles are not entirely unique.

Different Zones

Wall Street operators are exemplifying the concept of different time zones as they look beyond the dismal visible business news which reveals a total slowdown, curtailment in housing and automobile sales, scarce credit, high interest rates, shrinking profits and rising unemployment. Despite current bumps, speculators are exploring whether the 14-month stock market decline is bottoming out. Those who are engaged in this probing, allowing for time lags, are closing their eyes to current realities and are seeking to visualize the light at the end of the tunnel when liquidation is over and recovery begins.

The optimists cite the fact that this time there is no shortage of ideas as to how to utilize economic resources. On the contrary, more private and governmental spending schemes are in the making than can be funded.

The inflation, aggravated by the escalation in Vietnam by President Johnson, was started earlier by the economic counsel given to Presidents Kennedy and Johnson, to the effect that it would be prudent to go beyond the soft money theories of Lord Keynes and plan budgetary deficits, which he recommended only during slumps, even in times of expanding volume of business and employment.

Until 1965, the inflationary pressures were largely potential, but then the Johnson belief that, despite the increased commitment in Vietnam, we could have butter as usual — as well as guns — without new means of payment, touched off vaster deficits and increasing price rises.

Too Soon

But those who are looking for a better future argue that we tried to do too much too soon. Accordingly, there should not be a recurrence of the 1930 pessimism, when short term distress was misinterpreted as lasting decay.

Thus FDR mistakenly stated in his San Francisco campaign speech that our industrial plant had "been fully built". The country was then only a few years away from the unprecedented expansion ahead.

Yet the technocrats were declaring that the machine would displace human workers. They completely misread the economic signs and ignored the fact that, as the machine relieved human beings of much of the "sweat and groan" of labor, there would be an insatiable demand by the service trades for persons released from direct production.

In 1970, some 42 years have passed since Herbert C. Hoover, then secretary of commerce, observed that never before in history was a people so near the possibility of abolishing poverty. Better housing and improvement of the status of that part of the labor force with low productivity are a challenge, and industry, with a profit squeeze, is searching for better equipment as a means of improving earnings through substituting cheap capital goods for expensive human labor. Aviation and space, and the whole new scientific revolution are replete with ideas for the future.

:Mr. Rukeyser will be pleased to receive inquiries from readers concerning their financial problems. Letters with stamped, self-addressed envelopes should be sent in care of The Lincoln Star. Questions of general interest will be answered in the column. Others, to the extent time permits, will be handled by mail.)

LINCOLN

Eggs: Prices mostly unchanged from March 3. Grade A large 38½-45. A medium 32-40.

NEBRASKA

Eggs: Grade A large 35-46, mostly 38; A medium 30-37, mostly 32; A small 18-27; B large 24; undergrades 20-24; clean current receipts 23-28 mostly 28; clean current receipts 28-29, mostly 28.

Poultry: Hens 3-6 mostly 4; old roosters and stags 3-4 mostly 3.

CHICAGO

Cheese: processed loaf 55-64¾; brick 56¾-68¼; single daisies 62-69¾; Swiss blocks 80-100 lb: Grade A 74-78, B 72½-76.

Butter: steady; 93 score 67¼; 92 score 67¼; 90 score 65¼.

Eggs: mixed: white large extras 47-48; mediums 40; standards 39.

Hens Lay More If On A Slope

Upsala, Sweden (UPI) — Hens lay more eggs and eat less when they live on a sloping net floor, according to Swedish experts.

The experts also say hens lay fewer eggs in narrow cages.

One Killed, One Hurt In Jet Shooting Suicide Over State

Denver (AP) — One man died and another was seriously wounded in a shooting suicide aboard a United Air Lines jetliner high over western Nebraska Thursday, the FBI said.

The plane, a 727 bound from San Jose, Calif., to Chicago, turned back and made an emergency landing at Denver's Stapleton International Airport Thursday afternoon.

The FBI said one passenger apparently shot himself in the head with a revolver. The bullet, an FBI spokesman said, then struck another passenger, sitting across the aisle, in the chin.

Dead Man Named

United identified the dead man as J. Thomas, 35, and the wounded man as J. M. Sager, of Pleasanton, Calif. Both boarded in San Jose, the airline said.

A United spokesman in San Francisco said Thomas had purchased a ticket to New Haven, Conn., and Sager a roundtrip ticket to Minneapolis, Minn.

Sager, with a wound in his neck and lower face, was listed in serious but stable condition after treatment at St. Joseph's Hospital.

Body Removed

The body of the dead man was removed from the jetliner, which was parked in a maintenance hangar at the airport, about an hour and a half after the landing.

Robert Chase of Chicago, a passenger, said he was sitting next to the man who was wounded. "One man on the far side of the cabin pitched forward and the man next to me . . . I didn't realize he'd been shot," Chase said.

He and several other passengers said they thought they heard two shots. Passengers sitting nearby, in the rear section of the tourist compartment, said they heard no argument or other unusual commotion before the shooting.

Two Archbishops Pray Together

New York (AP) — Terence Cardinal Cooke and the archbishop of Canterbury, Dr. Michael Ramsey, primate of the Church of England, prayed together Thursday night at the main altar of St. Patrick's Cathedral.

The two archbishops knelt in prayer for about two minutes.

Cardinal Cooke then took his guest on a brief tour of the cathedral.

Few Beggars Pro

Rio de Janeiro (AP) — There are 10,000 beggars in Rio de Janeiro but only a handful are professionals who earn a steady living that way, a

Hijacker's Father Dies From Stroke

Rome (AP) — Luigi Minichiello, father of trans-Atlantic air hijacker Raphael Minichiello, died of a stroke in a Rome hospital Thursday before his son could reach his bedside.

The younger Minichiello, the Marine who forced a TWA jetliner to fly from California to Rome last October, received permission to leave Rome's Queen of Heaven jail to visit his father. But he got to the hospital too late.

Luigi Minichiello had come to Rome earlier in the day from his home town of Mileto Irpino, to see Raphael. Then he suffered a stroke.

Kansas Withdraws Support Of Constitutional Convention

Topeka (AP) — The Kansas house of representatives passed Thursday a state senate-approved resolution asking Congress to withdraw the state's earlier request for a federal constitutional convention.

The measure does not need the governor's signature.

Thirty-three states, including Kansas, had urged Congress to call the convention to write an amendment designed to supercede the U.S. Supreme Court ruling requiring apportionment of both houses of state legislatures on a one-man, one-vote basis.

Last October, a federal judge declared the Utah resolution invalid, claiming it was passed by a malapportioned legislature. That case is being appealed.

Two-thirds of the 50 states, or 34, would have to request action before Congress could summon the convention.

4:40 p.m., 1225 No. 46th, oven fire, no damage.

Greater Nebraska Corp. To Acquire The Great West Casualty Company

Officials announced Thursday an agreement under which Great West Casualty, a South Sioux City multiple line casualty insurer specializing in long haul truck and cargo insurance, will become a wholly-owned subsidiary of The Greater Nebraska Corp., a Lincoln-based financial and insurance holding company.

The value of the proposed transaction, which will be subject to shareholder approval, was estimated at $5 million.

The agreement calls for the issuance by The Greater Nebraska Corp. of five shares of its common stock for each outstanding share of Great West Casualty. The 1,850,000 shares of Greater Nebraska Corp. represents 40% of that company's outstanding stock.

The Greater Nebraska Corp. will, as a part of the same transaction, acquire for cash the home office building of Great West Casualty located in South casualty agencies, currently operating as agencies for Great West Casualty and other casualty insurers. Those agencies in 1969 had total premium writings in excess of $4 million.

The agencies to be acquired include Joe Morton and Son, Inc., and Great West Underwriters, both of South Sioux City and Motor-Ways, Inc., of Des Moines, Iowa.

H. A. Zethren, executive vice president of The Greater Nebraska Corp., reported that the combined results of operations of Great West Casualty and the major Greater Nebraska subsidiaries, Lincoln Benefit Life Company of Lincoln and Protective Fire and Casualty Co. of Seward, would have shown for 1969 a combined assets total of over $14,800,000 and combined net premium writings for the year in excess of $9,100,000.

The total number of employes of firms involved in the transaction will increase to 140, with an annual payroll of $1,036,000.

On Feb. 11, Protective Fire and Casualty absorbed, through a bulk reinsurance transaction, the Capital Mutual Insurance Co. of Lincoln.

Attorney Thomas Pansing, representing the holding company, said Thursday that "Greater Nebraska hopes to continue to grow . . . to acquire other financial institutions in the future . . ."

Officers of The Greater Nebraska Corp., which was formed in 1965 with the first issue of stock sold publicly in Nebraska only, are Hans Larsen of Central City, president, Ray Peake of Chester, chairman of the board, Zethren of Lincoln, executive vice president, Simon Korshoj of Blair, vice president and Floyd Pohlman of Auburn, treasurer.

DeCamp Reports Army OKs Free Mail Privileges

Omaha (AP) — Army Capt. John DeCamp, who is running a campaign for the 40th District seat in the Nebraska legislature from Vietnam, reported by letter that his free mailing privileges were still in effect.

DeCamp said, "I had to go to the highest officials in the Army to clear the matter up." He said "If those who tried to stop my using this privilege wish to trade places with me here in Vietnam, I will be happy to give them my M16 rifle and put stamps on my mail."

Earlier there was some question whether the Neligh native would be able to distribute his campaign literature through the free postal service available to servicemen overseas.

DeCamp, a graduate of the University of Nebraska Law school, is making his second attempt to become a member of the state legislature.

ORDINANCE NO. 9947

AN ORDINANCE amending Section 2 of Ordinance No. 9880, adopted by the City Council of the City of Lincoln, Nebraska on the 17th day of November, 1969, providing for the submission of said ordinance to the voters of the City of Lincoln, at a special election of the City of Lincoln to be held on Tuesday, May 12, 1970.

BE IT ORDAINED by the City Council of the City of Lincoln, Nebraska:

Section 1. That Section 2 of Ordinance No. 9880, adopted November 17, 1969, is hereby amended to read as follows:

"Section 2. Pursuant to Article IV, Section 25 of the Charter of the City of Lincoln, Nebraska, such board shall not be established until such action has been approved by a majority vote of the electors and said matter shall be submitted to said electors at a special election of the City of Lincoln to be held in the City of Lincoln, Nebraska on Tuesday, the twelfth day of May, 1970."

Section 2. That all ordinances and parts of ordinances in conflict herewith be and they are hereby repealed.

Section 3. This ordinance shall take effect and be in force from and after its passage and publication according to law.

Introduced by
Bill Davidson

Passed: March 9, 1970
Acting Mayor, Ervin E. Peterson
ATTEST: Harold W. Springer,
City Clerk
(SEAL)

ORDINANCE NO. 9941

AN ORDINANCE establishing the official grades of certain streets in GREEN ACRES, an addition within three miles of the corporate limits of the City of Lincoln, Nebraska, with reference to a datum plane herein described, and accepting and approving the plat of Green Acres, an addition within three miles of the corporate limits of the City of Lincoln, Nebraska, filed in the office of the Planning Department of the City of Lincoln, Nebraska, upon certain conditions herein specified and providing for bonds conditioned upon the strict compliance with such conditions, and declaring an emergency.

WHEREAS, S. E. Copple, owner of Lots 112 and 114 Irregular Tracts in the Southeast Quarter of the Southwest Quarter of Section 33, Township 10 North, Range 6 East of the Sixth Principal Meridian, Lancaster County, Nebraska, described as beginning at the southeast corner of the said Southwest Quarter; thence westerly along the south line of the said Southwest Quarter on an assumed bearing of due west 1179.83 feet to the southeast corner of Lot 103 Irregular Tracts in said Southeast Quarter of the Southwest Quarter; thence north 0 degrees 08' east, along the east line of said lot 103 Irregular Tracts, 375.00 feet to the northeast corner of said Lot 103 Irregular Tracts; thence south 89 degrees 57' west along the north line of said Lot 103 Irregular Tracts 150.00 feet to the northwest corner of said Lot 103 Irregular Tracts, said corner being on the west line of the said Southeast Quarter of the Southwest Quarter; thence north 0 degrees 16' west along the west line of the said Southeast Quarter of the Southwest Quarter, 958.50 feet to the northwest corner of the said Southeast Quarter of the Southwest Quarter; thence south 89 degrees 42' east along the north line of the said Southeast Quarter of the Southwest Quarter, 604.25 feet to the northwest corner of Lot 113 Irregular Tracts in the said Southeast Quarter of the Southwest Quarter; thence south 0 degrees 01' east along the west line of the said Lot 113 Irregular Tracts, 185.00 feet to the southwest corner of said Lot 113 Irregular Tracts; thence north 89 degrees 57' east along the south line of the said Lot 113 Irregular Tracts, 726.00 feet to the southeast corner of said Lot 113 Irregular Tracts, said corner being on the east line of the said Southeast Quarter of the Southwest Quarter; thence south 0 degrees 08' east along the east line of the said Southeast Quarter of the Southwest Quarter, 1146.10 feet to the point of beginning, containing 36.2 acres more or less, having platted said real estate under the designation of GREEN ACRES, and having filed said plat in the office of the Planning Department of the City of Lincoln, Nebraska, with a request for approval and acceptance thereof, in the manner and form as by ordinance required; and,

WHEREAS, it is for the convenience of the inhabitants of said City of Lincoln, Nebraska, and for the public that said plat be approved, and accepted as filed.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Lincoln, Nebraska:

Section 1. That the grades of certain streets in Green Acres, an addition within three miles of the corporate limits of the City of Lincoln, Nebraska, be and they are hereby established with reference to a datum plane, which is located as follows: Bench mark cut in water table at the northeast corner of the City Hall Building (at 10th & "O" Streets) is 79.94 feet above datum plane.

The grades hereby established shall be uniform straight lines between adjacent points hereinafter specified in said streets and between the grade points heretofore established by ordinance in adjacent streets.

Section 2. Grade at a point in Southwest 23rd Street 150 feet north of the centerline of West Van Dorn Street: East Side 108.00, west side 108.00; provided, however, that the grades established in this section shall be considered as points of intersection of tangents to vertical curves 200 feet long.

Section 3. Grade at a point in Southwest 23rd Street 450 feet north of the centerline of West Van Dorn Street: East side 93.50; west side 93.50; provided, however, that the grades established in this section shall be considered as points of intersection of tangents to vertical curves 400 feet long.

Section 4. Grade at a point in Southwest 23rd Street 900 feet north of the centerline of West Van Dorn Street: East side 113.00, west side 113.00; provided, however, that the grades established in this section shall be considered as points of intersection of tangents to vertical curves 200 feet long.

Section 5. Grade at a point Southwest 23rd Street at the north line of the plat: East side 118.77, west side 118.77.

Section 6. Grade at the intersection of Southwest 23rd Street and Green Acres Boulevard: Northeast corner 103.55, Southeast corner 102.41.

Section 7. Grade at a point in Green Acres Boulevard 30 feet east of the centerline of Southwest 23rd Street: South side 103.35.

Section 8. Grade at a point in Green Acres Boulevard 400 feet east of the centerline of Southwest 23rd Street: North side 107.55, south side 107.55; provided, however, that the grades established in this section shall be considered as points of intersection of tangents to vertical curves 200 feet long.

Section 9. Grade at a point in Green Acres Boulevard 700 feet east of the centerline of Southwest 23rd Street: North side 100.12 south side 100.12; provided, however, that the grades established in this section shall be considered as points of intersection of tangents to vertical curves 200 feet long.

Section 10. That the plat of Green Acres, filed in the office of the Planning Department of the City of Lincoln, Nebraska, by S. E. Copple, as owner, be and it is hereby approved and accepted, and said S. E. Copple, as owner, be and he is hereby given the right to plat said Green Acres as an addition within three miles of the corporate limits of the City of Lincoln, Nebraska, in accordance therewith. Such acceptance and approval are conditioned upon the following conditions:

First: That the owner above set forth shall prior to the passage of this ordinance, enter into a written agreement with the City of Lincoln, agreeing to pay for all labor, material, engineering, and inspection costs in connection with the construction of open drainageways, roadside ditches, culvert installations and street grading, all in conformance with the requirements of the Lancaster County Engineer and the City Engineer and to be completed not later than March 1, 1972. At such time as the streets are paved, the pavement design must be approved by the City of Lincoln, and are subject to City standards.

Second: That the owner above set forth shall prior to the passage of this ordinance, enter into a written agreement with the City of Lincoln, agreeing to pay for all labor, material, engineering, and inspection costs in connection with the construction of a drainage inlet structure at the intersection of South Coddington Avenue and West Van Dorn Street. This structure must be constructed to the specifications and under the supervision of the Lancaster County Engineer and to be completed not later than March 1, 1972. All other open drainage ways must be grassed and properly maintained to prevent erosion.

Third: That the owner above set forth shall prior to the passage of this ordinance, enter into a written agreement with the County of Lancaster to grant a necessary easement to said County for the purpose of developing a temporary cul-de-sac at the termination of any interior street at the limits of the plat of Green Acres. Such agreement shall provide:

(1). That the owner shall grade any such temporary cul-de-sac with a road surface of a 44 foot radius within an easement having a radius of 60 feet.

(2). That the granting of any such easement and grading of road surface for any such temporary cul-de-sac shall be accomplished upon the opening of any interior street which would dead-end at the limits of the plat.

(3). That at such time as any such dead-end street, previously opened as provided above, is continued beyond the limits of the plat, the owner shall remove the temporary cul-de-sac provided therefor and the County shall release the easement for such temporary cul-de-sac.

Fourth: That the owner above set forth shall prior to the passage of this ordinance, enter into a written agreement with the City of Lincoln, agreeing that the present easement now in effect regarding the gas service line, be rescinded and a new easement of a specific width and location be granted across the plat at the existing location of the gas service line and that appropriate signs or markers be established in permanent locations.

Fifth: That the owner above set forth shall prior to the passage of this ordinance, enter into a written agreement with the City of Lincoln, agreeing that said owner or his successors and assigns shall pay for all labor, material, engineering, and inspection costs in connection with the construction and maintenance of the necessary individual sewage disposal units, provided, however, that no disposal field shall be within 30 feet of, and no septic tank shall be within 25 feet of, and no building sewer line within 10 feet of the State water line as presently located; and further, that said owner or his successors and assigns shall construct, maintain and keep in repair the necessary individual wells and water systems. Both sewer and water facility plans shall be approved by and installation shall be inspected by the Lincoln-Lancaster County Health Department.

Sixth: That the owner above set forth shall prior to the passage of this ordinance enter into a written agreement with the City of Lincoln, agreeing that no lot shall be less than 3 acres unless supplied with public water and sewer facilities.

Seventh: That the owner above set forth shall prior to the passage of this ordinance enter into a written agreement with the City of Lincoln, agreeing that if at any time in the future, the existing 10 inch State of Nebraska water main traversing this plat should become the property of the City of Lincoln, the owner, his successors and assigns will not request and understand that they will not receive service from this line to any properties located within the plat without the prior relocation of this water main into the public rights-of-way.

Section 11. That the owner above set forth shall prior to the passage of this ordinance, execute and deliver to the City of Lincoln:

(a) a bond in the sum of $3,500.00, conditioned upon the strict compliance by the above-named owner with the conditions contained in paragraph designated "First" of the next preceding section of this ordinance;

(b) a bond in the sum of $500.00, conditioned upon the strict compliance by the above-named owner with the conditions contained in paragraph designated "Second" of the next preceding section of this ordinance.

(c) the bonds required above shall be subject to the approval of the City of Lincoln, Nebraska, and shall be further conditioned that in the event the above-named owner fails to comply with the conditions herein set forth, the City Council shall proceed to fulfill said conditions, the cost thereof to be paid by the surety on said bonds. Such work shall be performed in the manner set forth in Title 26 of the Lincoln Municipal Code, known as the Land Subdivision Ordinance, as now existing or as may hereafter be amended.

Section 12. Immediately upon the taking effect of this ordinance, the owner shall file a certified copy of this ordinance and the Agreement attached hereto as Appendix "A" in the office of the Register of Deeds of Lancaster County, Nebraska.

Section 13. Whereas an emergency exists, this ordinance shall take effect and be in force from and after its passage and publication.

Lawyers Ask Reopening Of Carswell Hearings

©The New York Times

Washington — The Senate was asked Thursday by 457 lawyers, law deans and law professors to reopen hearings on G. Harrold Carswell's nomination to the Supreme Court.

In a statement distributed to all members of the Senate, the lawyers asserted that too many questions remained unanswered about Carswell's civil rights views and his professional competence to justify a Senate vote on his nomination without more investigation.

The statement charged that since the Carswell hearings schools, all of the state bar associations and many local ones.

ended, evidence of segregationist leanings by the nominee plus mounting reservations in legal circles about his qualifications required further inquiry into his background. It called upon the Judiciary Committee to obtain his unpublished opinions and to subpoena the Justice Department's files on his record.

On the basis of the present record, the statement asked the Senate to reject Carswell's nomination.

It declared that aside from Carswell's record of "white supremacy and ugly racism, he does not have the legal or mental qualifications essential for service on the Supreme Court or on any high court in the land, including the one where he now sits."

The statement bore many names that are prominent in legal circles, but the names were heavily concentrated among the law schools and cities of the North and West.

Samuel I. Rosenman, a Wall Street lawyer who acted as principal spokesman for the group, explained at a press conference here that the South was not included when copies of the statement were circulated to the major law firms in all cities of more than 100,000 population, excluding New York.

Asked why Southern lawyers were excluded, he replied: "Frankly, we didn't want to waste the postage. We thought that many would start with a Southern prejudice. But we will welcome with open arms any who are willing to join us."

Copies of the signed statement were sent to state and local bar associations in the South and to a dozen Southern law schools. From this came seven **signatures to the statement.**

In all, copies of the statement were submitted for signatures to about 300 law firms, 100 law

Artist Finishes Jackie Painting

Washington (UPI) — The official White House portrait of Jacqueline Kennedy Onassis has been completed by New York artist Aaron Shickler and soon will be shipped to Washington. The painting was commissoned by the White House Historical Association, which declined to reveal its price.

Shickler, who has done portraits of many other famous personalities, including the Duchess of Windsor, said in New York that he could not discuss the painting's dimensions and color or how many times the former First Lady sat for it.

Proxmire Urges Lockheed Audit

Washington (UPI) — Sen. William Proxmire, D-Wis., recommended a government audit of the Lockheed Aircraft Corp. Thursday in the light of the firm's request for an additional $641 million in financing to continue producing the C5A cargo plane.

Proxmire asked the General Accounting Office to investigate Lockheed's financial condition to find out whether the request was justified or whether it was trying to transfer its own financial problems to the Defense Department.

BONE DIES

Former Sen. Homer T. Bone of Washington state died in Tacoma at age 87. He was born in Franklin, Ind., moved to Tacoma in 1899 and was elected a state representative in 1922. He resigned from the U.S. Senate to become a judge.

Movie Title Changed

Hollywood (UPI) — Dissatisfied with their title of "Two Times Two," director Bud Yorkin and producer Norman Lear have changed it to "Start the Revolution Without Me."

LEGAL NOTICE

NOTICE TO BIDDERS

Sealed bids will be received in the office of the Purchasing Agent of the City of Lincoln, Nebraska, in Room B-367, County-City Bldg., up to the hour of 10:00 o'clock a.m., Wednesday, March 25, 1970, for furnishing all labor and material to construct Ice Skating Rinks and Warm-up Shelters at Peter Pan Park and Roberts Park, in accordance with approved specifications which are on file.

Copies of the specifications may be obtained in the Purchasing Dept.

Each bid must be accompanied by a certified check or bidders bond in the sum of five (5) percent of the total amount bid, made payable to the order of the City Treasurer, as a guarantee of good faith.

The City reserves the right to reject any or all bids and to waive any defect in bids.

W. W. Harvey, Purchasing Agent

NOTICE TO BIDDERS

Sealed bids will be received in the office of the Purchasing Agent of the City of Lincoln, Nebraska, in Room B-367, County-City Bldg., up to the hour of 10:00 o'clock, a.m., Wednesday, March 25, 1970 for Improvement of Sprinkler System at Holmes Golf, in accordance with approved specifications which are on file.

Copies of the specifications may be obtained in the Purchasing Dept.

TRI-RIB NYLON

The perfect all-round front wheel tractor tire! High center rib for easier steering, tough sidewall for long wear.

2ND TIRE LOW AS **8.65** 500-15 4-Ply Plus 65c F.E.T.

FARM WAGON

Straight rib tread design for controlled lateral traction and good flotation. Handles big loads for less. Nylon cord body.

2ND TIRE LOW AS **11.72** 700-760-16 6-Ply Plus 1.26 F.E.T.

POWER TRAC

Peak pulling power plus good flotation with a wide, deep tread and overlapping lugs. Nylon body resists cracking.

2ND TIRE LOW AS **47.50** 11.2/10.36 4-Ply Plus 4.19 F.E.T.

MEET THE NEW RIVERSIDE HST "78 WIDE

For 78 Series styling and performance, the HST "78 WIDE" is unmatched! 2 rayon cord belts circle the wider, flatter tread to improve traction and handling. Strong 4-ply nylon cord body wears long and resists heat build-up. The tread is guaranteed for 36 full months against wearout.

24-MO. HEAVY SERVICE

Extra thick plates for big job power. Spill-proof vents and L-type terminals. Fits most garden tractor models. Dry-charge, 24-mo. guarantee.
